DON'T DELAY TO

Stop that cough! Else the bronchial tubes will be enlarged and the delicate tissues of the lungs exposed to injury. No other medicine is so speedily operative in throat and lung troubles as **Ayer's Cherry Pectoral.** A few doses have been known to break up an obstinate and distressing cough. Sufferers from asthma, bronchitis, croup, consumption, sore throat, and whooping cough find a sure relief in the use of this preparation. It soothes the inflamed membrane, promotes expectoration, and induces repose. Try Don't be without it in the house. Sallie E. Stone, Hurt's store, Va., writes: "I have found, in my family, that Ayer's Cherry Pectoral was always a certain cure for colds and coughs."

"Five years ago I had a constant cough, night sweats, was greatly reduced in flesh, and had been given up by my physicians. I began to take Ayer's Cherry Pectoral and was completely cured."—Anga A. Lewis, Ricard, N. Y. *

Weather Bureau,
Toledo, O., March 28.

Weather Indications.

Generally fair weather prevailed over the country from the Missouri valley and western Texas to the Alleghenies, and from the lakes to the gulf, this region being under the influence of the high barometer area, which is central over Chicago, with, however, no very decided fall in temperature. An area of low barometer has appeared in the northwest and is central over Montana and moving eastward, bringing higher temperature. The storm center which passed over the Ohio valley on Saturday has disappeared off the coast of Mexico. No rainfall is reported anywhere in the country, and very little for the past 24 hours.

The weather in this vicinity will continue fair with slight changes in temperature Monday and Tuesday.

A WAR OF RACES,

Such is the Present State of Affairs

As Viewed by the Black Man in Chicago.

Excited Meeting Held in a Negro Church.

They Refuse to Sing the National Hymn.

Incendiary Utterances from the Pulpit of the Church will Not Serve to Do the Negro Any Material Good.

Chicago, March 28.—One thousand colored people refused to sing the national hymn last night and applauded the retaliatory sentiment eloquently expressed by one of the speakers.

The audience gathered at Bethel African Methodist church, Thirtieth and Dearborn streets, to consider the recent southern outrages and to express their sentiments in reference to bettering the condition of the colored people.

Rev. George W. Gaines, the pastor, preached a short sermon in which he exhorted the people to consider these matters which effect the interest of the race with Christian forbearance, trusting to the plan of infinite wisdom to bring about some remedy for the execution of the law.

After his sermon the meeting was opened to the consideration of the recent cause in the south which has led the colored people to voice their protest in no mistaken way.

A decided sensation occurred when the pastor stepped forward and asked the audience to join in singing "My Country, 'Tis of Thee." A number of voices indicated a decided opposition to this part of the program. He did not at first comprehend the situation and asked: "Don't you wont to sing 'America'?" To which question a dozen voices in different parts of the house answered: "No."

One man in the audience rose and said: "I don't want to sing that song until this country is what it claims to be, 'Sweet land of liberty.'"

The preacher then started "John Brown," in which the entire audience joined in singing. The first speaker was Col A. A. Jones. He said that the lynching of the three men at Memphis and the young negress at Rayville, La., and the burning of a negro at the stake at Texarkana should cause the colored people throughout the country to join in one voice to protest and send a committee to Washington to see if some plan could not be devised to protect a citizen in Louisiana as well as one in Chile.

He was followed by E. H. Morris, who claimed the laws were in the hands of the people and that the colored citizens should organize themselves into leagues and associations and thus be enabled by united efforts to resist the outrages.

Dr. J. Webb Curtis spoke of the outrages perpetrated upon the negroes of the south. Sol Taylor said that the colored man in the south had borne his sufferings with patience, which had ceased to be a virtue, and the time was fast coming when the fatal blow would be struck.

F. L. Barnett said, among other things: "During the years of our freedom more than ten thousand of our race have met with violent and unlawful death. 'Ten thousand' toys lightly upon the tongue, but to the thoughtful man 10,000 murders mean something. It means 10,000 homes shocked by the brutal butchery of loved ones, 10,000 families nursing the smouldering embers of hate to keep them warm, 10,000 crimes for which some one must pay.

"To-day the south stands with reckless feet upon a crime-stained crust, beneath which seeth and swell the pent-up and pitiless energy of outraged humanity.

"One murder too many and that spirit will break forth in one remorseless sweep of devastation and death. Ten thousand victims may die, but it will be ten thousand black and white in 'one red burial beat.' God forbid that day, but if it must come, let it come."

BURNED OUT HIS LIFE.

Murderer Cotto Electrocuted at Sing Sing.

One of the Most Brutal Crimes of the Day.

Cold Blooded Slaughter of a Husband Who Stood in the Way of an Unholy Alliance.

Sing Sing, March 28.—Cotto was electrocuted at 10:45. The murder for which Cotto is dead was committed last July in the outskirts of Brooklyn. Cotto and his victim, Louis Frankeloso, were ragpickers. Cotto had been a lover of Mrs. Frankelosq in Naples, Italy, and after she and her husband emigrated to this country she sent Cotto money to follow her.

He deserted a wife and family to join his paramour here. He lived with the Frankelosos in a tumble-down tenement in Brooklyn, and he and Mrs. Frankeloso discussed the question of putting Frankeloso out of the way so that they might maintain their relations without the husband's interference.

One Friday night Frankeloso started out to steal vegetables from the neighboring farms and wa stealthily followed by Cotto.

Upon a lonely roadside Cotto came upon his victim and with savage fury stabbed him no less than fourteen times.

Frankeloso was left lying dead in the road.

Cotto returned to the Frankeloso home, and standing before the woman he had widowed, licked the blood from the knife with which he had committed the deed.

This was the eighth execution by electricity. It possessed peculiar interest because it had been reported that Cotto had been suffering from a dreadful fear of his approaching death and because it seemed probable that he would break down and make a pitiful scene in the execution room. But Cotto's courage had seemed to increase with the approach of death. The nervousness which had almost prostrated him in the days preceding seemed to leave him to-day and he went to death calmly.

At the last electrocution arrangements were made to try the method of applying the electrodes suggested by Thomas A. Edison and other eminent electricians—through the hands, but the results were so unsatisfactory that Dr. Charles F. McDonald, who has had charge of the details of all the executions by electricity, thought it best to return to the form of application before used at Sing Sing—at the forehead and the calf of the leg.

The witnesses included half a dozen newspaper reporters representing the principal morning papers in New York city, and the United Press.

Shortly after 10 o'clock the witnesses were summoned by the warden and went into the prison. Electrician Davis had tested the current. Everything was in perfect order and Cotto was brought in.

Father De Sautis walked in front of Cotto, holding the crucifix before his eyes and uttering prayers in Italian, to which he made firm responses. He took his place in the chair without any signs of failing.

The priests knelt in front of the death chair and continued praying aloud. Cotto kept his eyes fixed on them and continued to repeat the responses while he was being tied in the chair.

The electrode was applied to the right leg. When the straps had been adjusted Warden Brown asked the electricians if everything was ready Davis nodded Immediately the warden gave the signal with his right hand, the switch bar was thrown, and the current shot through the form in the chair.

The priests were still praying in a loud voice, but the straps across Cotto's face partly bound his lips and he could only mumble the responses.

The sound of his voice was cut off sharply as the current passed through him and his body strained at the straps. His face flushed purple and froth came from his lips. It was exactly 10:45.20 when the current was first turned on. It was turned off in 32 seconds.

Cotto slowly opened his eyes and looked at Father Milo with what seemed a reproachful expression. He seemed protesting mutely against the treatment he was receiving. His hands moved and there was no doubht in the minds of the witnesses that he was not only alive, but conscious.

The signal was given again by Warden Brown, and once more the body stiffened up and strained at the straps. The current was kept on about 12 seconds. When it was turned off a second time Cotto's body settled down in the chair, limp, and at first apparently lifeless. The doctors stepped forward to listen to the heart and to feel the pulse, but before they reached the body the fingers moved and Warden Brown again gave the signal.

For the third time the current shot through the body and the rigidity of muscles and the straining at the straps was repeated. When the current was turned off this time Dr. Irving applied the stethoscope to the heart and Dr. Abbett, who had been keeping the official time, felt the pulse. They shook their heads and stepped back.

The fingers began to move again and there was plenty of evidence that Cotto was still alive.

For the fourth time the warden gave the signal and for the fourth time the current was turned on. It was not turned off until the face of the man had turned a purplish black and the exposed part of the right leg was of the same color. This time the current completed its work, for when it was turned off the physicians found no signs of life.

Dr. Irving, in aswer to a question of the reporter of the United Press as to the indications of life after the third shock, said: "Yes, there were faint indications of life when I listened at the man's heart and felt his pulse."

The official time shows that the current was first turned on at 10:45.20 and that the last shock was given at 10:48.03, or in other words it required about three minutes to kill the man.

Cotto's body was not claimed by his relatives. It will be buried in quick lime. Cotto's brother and cousin were here Saturday, but they said they did not want the body; their only anxiety was about $54 which Cotto had when he was captured by the police.

Electrician Davis says the execution was a success. The voltage at the first contact was 1,780. After that it varied from 1,600 to 1,700.

BY THE THOUSAND.

The Rebels Were Slaughtered in China.

Desperate Fighting in the Orient.

Official Reports from the Bloody Battles That Have Taken Place in China.

San Francisco, March 28.—According to advices just received from Shanghai, the bloody engagements recently fought between the imperial troops and rebels in northern China resulted in the slaughter of several thousand rebels. The imperial army lost only five killed and 45 wounded. Over 8,000 rebels were put to death with the sword, and 500 were actually burned alive.

A number of engagements are reported. A body of insurgents numbering 300 were overtaken by the imperialists at a place 60 miles from Kulun, and over 100 of them were killed and three of the leaders were made prisoners.

In a second engagement over 50 of the enemy were put to the sword and the remainder were obliged to retire to a pawnshop, the strong walls of which made it an admirable place to defend. The imperialists closely invested the building and killed over 150 of the inmates.

Intelligence later reached the imperialists' camp that a force of the enemy comprising 600 cavalry and 800 infantry had arrived with the object of coming to the rescue of their confederates. They were attacked in the front and rear by the imperial forces and lost 400 men during the battle. Those who escaped encountered another party of imperialists, who shot 50 of them and made a score of prisoners.

Another detachment of rebels was posted at Meyakoutze, to which place the imperialists continued their march.

The rebel detachment numbered about 100, of which 60 were killed and 20 made prisoners, among the latter being the so-called leader of the vanguard Li Hung Tsa, who was instantly decapitated. A still larger force of the enemy was posted in the Chien Chang district, where they had an encampment, with guns fitted up in loopholes of the wall surrounding the village.

Churches of the new creed served as outposts of the rebel army. An onslaught was made upon their position, and after an engagement lasting two hours 800 out of a total of 1,300 were put to the sword.

About 500 of the rest were burned alive, including stragglers. It is estimated that not less than 1,400 of the enemy were killed. A number of the adherents of the new creed were captured, including three leaders, who were instantly decapitated.

VON EULENBURG,

The New Prussian Premier, in Charge.

Almost a Riot in the Landtag

When the School Bill Was Abandoned.

Causes Which Brought About the Change.

A Legacy of Reconing Left to the Legislative Bodies Which Will Make the Premier's Task a Difficult One.

Berlin, March 28.—The landtag has not witnessed in many years such an exciting scene as that of to-day when the new Prussian premier announced that the primary education bill had been abandoned.

Von Eulenburg was received on his first appearance as the head of the Prussian ministry with signs of general respect.

He is a man whose manner and appearance impress favorably and with the exception of the social democrats, the members of the landtag have no prejudice against him personally.

Even those who dislike the aristocracy as such respect Von Eulenburg for his literary culture. Therefore, the first impression to-day seemed favorable.

The premier, however, was not long in raising a scene significant of future discord in the diet. He announced, in clear and unequivocal language, that the government had decided to abandon the school bill.

The statement had an electrical effect. Everybody had expected that the education bill had been postponed indefinitely, but the declaration that it had been abandoned was almost a universal surprise.

The national liberals were delighted; the ultramontanes could not conceal their anger. They had not anticipated such a straight blow from the government, and a storm of hisses greeted the premier's announcement.

The national liberals cheered loudly, and both parties got so excited that, for a time, it seemed as if some might be provoked to personal violence.

The premier took everything calmly and waited until the excitement had quieted down. Then he proceeded with other business.

It was said that it was not the original purpose of the kaiser to abandon the educational bill entirely, and that the government has been impelled by two causes to its action.

One cause is the violent course of the ultramontanes since it became known that the government would not sustain the bill in its original form. The ultramontane organ, Germania, has indulged in threats and menaces ever since the cabinet meeting when the kaiser announced his change of purpose, and the tone of the ultramontanes in the landtag has added to the aggravation.

The kaiser had become gradually irritated, until now he is almost as angry with the ultramontanes as with the socialists.

The other cause for abandoning the bill is that Von Eulenburg would accept the office of Prussian premier only on that other condition. He said that he did not wish to be hampered with the issue and that before he could undertake the presidency of the ministry, the kaiser should consent to the removal of the obstruction.

It is now out of the way altogether, but it has left a legacy of reckonings that, in the general opinion, will make Von Eulenburg's task as premier very difficult.

FOUND MORTALLY WOUNDED.

He Had Trouble But Refused to State With Whom.

Chicago, March 28.—At 12:15 o'clock this morning E. C. Frost, a Pullman palace car conductor, was found at the corner of Twenty-seventh and Butler streets with a bullet wound in his eye, which will probably prove fatal.

When questioned about the shooting Frost refused to make any statement other than that he had trouble with another man, whose name, however, he refused to give.

Frost says in case his assailant is arrested he will not prosecute him, and that it is an affair in which the public has no interest.

Officers are at work on the case and will endeavor to learn who is responsible for Frost's condition.

DIED FOR HIS LOVE.

Sad Termination of an Elopement.

Both Riding One Horse the Lover was Shot by a Party of Ranchmen.

Corpus Christi, Tex., March 28.—A sad termination of an elopement is reported from Hidalgo county. On Friday two rangers were riding along a road there when they came upon two Mexicans riding the same horse. The rangers called on them to stop, but the Mexican riding in front answered: "I'll die first," and drawing a revolver fired at the rangers.

They answered the fire and the man fell, shot through the body. The Mexican riding behind sprang from the horse and kneeling beside the prostrate form of the dying man raised his head and began sobbing and begging him to live.

Then it was perceived that the uninjured Mexican was a young woman in male attire. The dead man was her lover.

The parents of the young woman disapproved of her choice, and the couple were on their way to find a priest when the fatal encounter occurred. They mistook the rangers for friends of the girl's parents coming to take her back, and she had appealed to her lover to protect her.

PECULIAR DIVORCE CASE.

A Dead Husband Causing Some Trouble.

His Former Existence Stands in the Way of Prosecuting a Claim for a Widow's Pension.

Paterson, N. J., March 28.—A lawyer here has under advisement the application of a woman for a divorce from a dead man.

Her first husband enlisted in the war and was killed.

She married again, and at the death of her second husband she ascertained that her second marriage deprived her of the benefits of the law.

Subsequently she learned that her second marriage was bigamous, husband No. 2 having a wife living at the time of his marriage to her.

This marriage, she thinks, can be set aside as null and void, and then she will be able to procure a widow's pension.

ZEPHYRS OF THE SPRING.

The Opening Guns Were Fired Saturday Night,

And Their Echo Was Most Terrific.

Much Damage Done in Northwestern Ohio by the Elements While on a Recent Lark.

Norwalk, O., March 28.—The severest storm and one of long duration occurred Saturday night, commencing a little after 6 o'clock and continuing with fury until after 10 o'clock.

The storm was accompanied by high wind, thunder and lightning, with heavy hail. The lightning struck in several places.

The incandescent light plant was damaged considerably by the burning of the dynamos. Andy Clock's barn at Monroeville was struck and burned. It is reported that a house at Wakeman was struck and three persons killed. The Wheeling & Lake Erie railroad has several bad washouts. Norwalk creek and Huron river are rushing torrents, with the bottom lands afloat.

Tiffin Flooded.

Tiffin, O., March 28.—(Special)—This section was visited by the heaviest rainfall and most severe storm in its history, considering the season of the year, last Saturday evening. The lightning was very severe, and several buildings were struck.

The only damage of consequence reported was at the residence of George H. Parker, in the Second ward. The house was badly damaged, and Mrs. Parker knocked down and rendered unconscious for six hours.

Rock creek swelled rapidly, and in a few hours had so inundated many houses that the occupants were forced to abandon them. The damage will be heavy.

The Sandusky river will continue to rise for two days, and as it is very high now disastrous results, similar to the flood nine years ago, are feared. The rainfall was 2.82 inches.

Business men in the lower portion of the city are removing their goods from their cellars and basements.

The lightning struck a barn on the farm of William Everingim in Venice township, destroying the building and all its contents, which included three horses, grain and machinery, making a loss of $3,000, on which there was small insurance.

Sewers Washed Out.

Napoleon, March 28.—(Special)—Saturday night and Sunday morning Napoleon was visited by one of the heaviest falls of rain in years.

Several small sewers in town jammed up, while one of the largest, crossing a large part of the business portion, caved in in several places, inundating many cellars and doing much damage.

The council will hold a special meeting this evening and take steps toward repairing the damage.

Was Cloud-Burst.

Fremont, March 28.—(Special)—Owing to the recent heavy rains the Sandusky river has so raised that the water has overflowed the banks in several places.

Grave fears for a disastrous flood are apprehended. The city water works station is completely submerged, the water being ruined. Several houses on the flats are under water and people are deserting their homes for safety. The water in some places covers the Wheeling & Lake Erie tracks.

Washouts Reported.

Norwalk, O., March 28.—(Special)—The Norwalk, O., March 28.—(heavy rains have caused overflows in many streams and a number of washouts are reported. The most serious one is on the Huron branch of the Wheeling & Lake Erie road, between Milan and Fries Landing. Over half a mile of track is washed away, and no trains have been run since Saturday.

SPORTING GOSSIP.

The Toledo Club to Open the Practice Season To-Day.

Dewald and Clark, two of Toledo's pitchers, put in an appearance yesterday and left for Cincinnati this morning, where the team will go into practice in the Association grounds. The Toledos will play the Cincinnatis Wednesday, Thursday and Friday, then they go to Louisville for three games, after which they will go to Joliet and Fort Wayne.

Notes.

All the Toledo boys will report at the Gerdes house, in Cincinnati to-day.

Dewald brought Alvord's Cuban bloodhound from Cleveland and left it with Joe Gartner.

Fort Wayne wants to break into the Western.

Joe Gibbins wants to fight any lightweight in the country.

The Y. P. S. C. E. of the Washington Street Congregational church will hold its annual election of officers Tuesday evening, after which a musical and literary program will be rendered and a reception tendered to the officers. A cordial invitation is extended to the Y. P. S. C. E.'s of the city to attend.

KNOWN TO THE POLICE,

Hallet Alsop Borrowe Well Acquainted

With Inspector Byrnes and His Men.

How Millionaire Newcombe Saved His Daughter from a Disastrous Marriage to the Young Man.

New York, March 28.—The World this morning says that Hallett Alsop Borrowe was well known at police headquarters before his name cropped out in connection with the duel Coleman Drayton tried to bring about.

As in the Drayton case, it was the result of his devotion to a lady living in New York that Borrowe came under the notice of Inspector Byrnes four years ago.

The complainant upon this occasion was H. Victor Newcombe, the well known millionaire. Borrowe, it appears, met the millionaire's daughter at some social function. Miss Newcombe at that time was barely more than a girl. She had, however, many romantic ideas, and was flattered by the attentions which Borrowe began to pay her.

He took every opportunity, it is said, of calling upon the young girl and impressing her with the warmth of his affections. Professing to be a man of great social knowledge and experience, Borrowe assumed to advise Miss Newcombe and her mother about such matters, thus, as an excuse for being at their Fifth avenue house, he more than once assisted in the writing and issuing of invitations.

From this it was only a step to opening up a correspondence with Miss Newcombe. Borrowe carefully read the girl's letters and tied them away for future reference.

Finally the matter came under the notice of Mr. Newcombe, and he dropped Borrowe a gentle hint to be less frequent in his calls.

To this, however, Borrowe paid but little attention and subsequently told Mr. Newcombe that he wanted to marry his daughter. For Miss Newcombe, he said, he had a profound affection and this was returned.

In proof of his assertion he said he had much documentary evidence, and that no cruel parent should keep them apart.

Mr. Newcombe, it is alleged, then saw that Borrowe had an eye to the money which his daughter would inherit and concluded to quickly stop his game. He consulted Inspector Byrnes in the matter. That astute official quickly formed a plan of action.

Borrowe, while down town one day, was tapped on the shoulder by one of Byrnes men who informed him that the inspector wished to see him.

Borrowe is said to have turned white upon hearing this, but at once answered the summons. He is said to have made three visits to police headquarters during which he made a confession and turned over to the inspector Miss Newcombe's letters. He has never bothered the family since.

A FIRE IN FREMONT.

Another Big Plant Badly Damaged.

The Herbrand Fifth Wheel Company Visited by a Most Disastrous Conflagration.

Fremont, March 28.—(Special)—Another disastrous fire has visited this city and completely gutted one of its largest manufacturing institutions.

At 3 o'clock Saturday afternoon fire broke out in the forge room of the Herbrand Fifth Wheel works, and in an hour's time completely destroyed the greater part of the immense plant.

The fire originated from a spark from one of the forges which communicated with an oil tank. In an instant the entire building was in flames and the workmen were compelled to run to save their lives. Clothing and tools were left behind.

The forge room was built of pine and burned like tinder.

The salesrooms and warehouses were of the same material and were completely destroyed, together with considerable adjoining property.

The fire extended over an entire square. The Central hotel was badly scorched, but by the supreme efforts of the firemen this building was saved.

The loss to the Herbrand company is about $20,000, fully covered by insurance.

BROKE HIS LEG.

Serious Accident to a Napoleon Business Man.

Napoleon, O., March 28.—(Special)—Yesterday morning Wm. Southerland, one of our prominent business men, fell on the sidewalk in front of the Union house and broke his right leg, besides dislocating that member at the hip.

The injury is very serious from the fact that from his knee down his leg is an artificial one, he having suffered the loss in a Lake Shore accident several years ago near Norwalk, and for which suit for damages is now pending.

Dr. Maerker reduced the fracture.

HE'S ON THE WARPATH.

Secretary Foster Out Hunting for Scalps.

He is Displeased at His Subordinates for Telling the Truth on the Witness Stand.

New York, March 28.—The Sun's Washington special this morning says that there is the highest authority for the statement that Secretary Foster is so displeased with the testimony of Assistant Secretary Nettleton during the pending investigation of Ellis island expenditures that he has practically determined to recommend his removal from office.

Several subordinates of Gen. Nettleton have also fallen under the secretary's displeasure.

Secretary Foster has made no concealment of his astonishment at the remarkable developments of the investigation and is convinced that Assistant Secretary Nettleton and other treasury officials have been guilty of the grossest negligence.

First Comptroller Matthews is one of those who has incurred the secretary's displeasure.

The members of the committee make no secret of the fact that their report will be almost, if not quite, unanimous in condemnation of Assistant Secretary Nettleton and in recommendation for his removal.

IS THE BILL DEAD?

The Democrats Cannot Agree on the Cloture Rule.

Washington, March 28.—Speaker Crisp told a congressman this morning that he would refuse to bring in a cloture rule on the silver bill unless a majority of the democratic members agreed to support the committee on rules on it. Thirty-five free coinage democrats have refused to sign a request for a cloture and the anti-silver men are claiming that the bill is dead.

STILL AT ODDS.

Latest News in the Bering Sea Trouble.

Salisbury's Last Note to This Government.

A Quiet Hint to Sealers of All Nations

That They Are Liable to Meet Obstacles.

The Question of Damages, as Also Which Country Has Been Damaged, to be Settled by Arbitration.

London, March 28.—Lord Salisbury, under date of March 26, has replied as follows to Sir Julian Pauncefote, in response to Mr. Wharton's note of March 22:

"In reply to your telegram of the 23d inst., notice has been given to owners of ships sailing for Bering sea that both agreements at present under discussion between Great Britain and the United States—that as to arbitration and that as to an intermediate arrangement—may affect liberty of sealing in Bering sea.

"They have, therefore, notice of their liability to possible interruption, and will sail subject to that notice.

"The question of time is not, therefore, urgent. Inform the president that we concur in thinking that when the treaty has been ratified there will arise a new state of things. Until it is ratified our conduct is governed by the language of your note of June 14, 1890. But when it is ratified both parties must admit that contingent rights have become vested in the other which both desire to protect. We think that the prohibition of sealing, if it stands alone, will be unjust to British sealers if the decision of the arbitrators should be averse to the United States.

"We are, however, willing, when the treaty is ratified, to agree to an arrangement similar to that of last year if the United States will consent that the arbitration should, in the event of a decision adverse to the United States, assess the damages which the prohibition of sealing had inflicted on British sealers during the pendency of the arbitration, and in the event of a decision adverse to great Britain, should assess the damages which the limitation of slaughter shall, during the pendency of arbitration, have inflicted on the United States or its lessees.

"As an alternative course, we are also willing, after the ratification of the treaty, to prohibit sealing in the disputed waters if vessels be excepted from prohibition which produce a certificate that they have given security for such damages as the arbitrators may assess in case of a decision adverse to Great Britain, the arbitrators to receive the necessary authority on that behalf. In this case a restriction of slaughter on the islands will not in point of equity be necessary.

"Her majesty's government are unable to see any other than any one of these two methods of restricting seal hunting in the disputed waters during the arbitration which would be equitable to both parties."

A later note from Lord Salisbury to Sir Julian Pauncefote, dated March 26, says:

"With further reference to your telegram of the 23d instant; I am not prepared to admit that I gather that the president thinks that we have objected to the arbitrators having jurisdiction as to damages inflicted in the past by the party against whom the award is given. I only objected to her majesty's government being liable for acts which they have not committed. I am ready to consent to a reference on this point on the following terms: That in case the arbitrators shall decide in favor of the British government, that government may ask them further to decide whether the United States government have, since 1885, taken any action in Bering sea directly inflicting wrongful loss on British subjects, and, if so, to assess the damages incurred thereby.

"That in case the arbitrators shall decide in favor of the United States, that government may ask them to decide further whether the British government, have, since 1885, taken any action in Bering sea directly inflicting wrongful loss on the United States or their lessees, and, if so, to assess the damages incurred thereby."

The Note of June 14.

Washington, March 28.—The note of Sir Julian Pauncefote of June 14, 1890, referred to in Lord Salisbury's reply of the 26th inst., is as follows:

Sir Julian Pauncefote to Mr. Blaine.

Washington, June 14, 1890.—Sir: With reference to the note which I had the honor to address to you on the 11th inst., I desire to express my deep regret at having failed up to the present time to obtain from you the assurance which I had hoped to receive, that during the continuance of our negotiations for the settlement of the fur seal fishery question British sealing vessels would not be interfered with by United States cruisers in the Bering sea outside of territorial waters.

Having learned from statements in the public press and from other sources that the revenue cruisers Rush and Corwin are now about to be dispatched to the Bering sea, I cannot, consistently with the instructions I have received from my government, defer any longer the communication of the formal protest announced in my note of the 23d ult. and the 11th inst., against any such interference with British vessels.

I have accordingly the honor to transmit the same herewith.

I have, etc., etc.,

JULIAN PAUNCEFOTE.

The Protest.

(Received June 14, 15, 1890.)

The undersigned by her Brittanic majesty envoy extraordinary and minister plenipotentiary to the United States of America, has the honor, by instruction of his government, to make to the Hon. Jas. G. Blaine, secretary of state of the United States, the following communication:

Her Brittanic majesty's government have learned with great concern from notices which have appeared in the press, and the general accuracy of which has been confirmed by Mr. Blaine's statements to the undersigned, that the government of the United States have issued instructions to their revenue cruisers about to be dispatched to Bering sea under which the vessels of British subjects will again be exposed in the prosecution of their legitimate industry on the high seas, to unlawful interference at the hands of American officers.

Her Brittanic majesty's government is anxious to co-operate to the fullest extent of their power with the government of the United States in such measure as may be found to be expedient for the protection of the seal fisheries. They are at the present moment engaged in examining, in concert with the United States, the best method of arriving at an agreement upon this point, but they cannot admit the right of the United States of their own sole motion to restrict for this purpose the freedom of navigation of Bering sea, which the United States have themselves in former years convincingly and successfully vindicated, nor to enforce their municipal legislation against British vessels on the high seas beyond the limits of their territorial jurisdiction.

Her Brittanic majesty's government is therefore unable to pass over without notice, the public announcement of an intention on the part of the United States to renew the acts of interference with British vessels navigating outside the territorial waters of the United States of which they have previously had to complain.

The undersigned is in consequence instructed formally to protest against such interference and to declare that her Brittanic majesty's government must hold the government of the United States responsible for the consequences which may ensue from acts which are contrary to the established principles of international law.

The undersigned, etc., etc.,

JULIAN PAUNCEFOTE.

IN AID OF TRAINMEN.

They Ask for Reform in the Matter of Car Couplers.

Baltimore, March 28.—A union meeting of the Brotherhood of Railroad Trainmen was held at Ford's opera house Sunday. Speeches were made by Mayor Latrobe and Hon. L. S. Coffin, of Iowa.

Mr. S. H. Cheeseman, of Philadelphia, a member of the Brotherhood of Railroad Trainmen, presided.

The following resolutions were adopted:

"Resolved, First, That we in mass meeting of railroad trainmen assembled in the city of Baltimore, Md., March 27, 1892, do respectfully, yet most earnestly, beg of congress to act at once in this matter and give to us the relief which it alone can grant, viz: A chance to save our lives and our limbs in our work, hazardous at best.

"Second, That in our judgment as practical men engaged in handling cars and trains, the legislation needed is some law that will supplement the work already done by the majority of more progressive roads in adopting a standard uniform coupler that will require all the roads to equip their cars with the same uniform standard coupler, as well as to require in all trains a sufficient number of cars fitted up with power brakes so as to give the control of the train into the hands of the engineer."

ARMY AND NAVY SUPPLIES.

The Government Buying Royal Baking Powder.

New York Tribune.

Large purchases of baking powder have recently been made by the United States government. In one lot 80,000 lbs. were bought of the Royal Baking Powder company.

During the last year, including the contract just made under date of March 5, the Royal Baking Powder company has supplied over 212,000 pounds, or 106 tons, of baking powder for the United States government and its army and navy officers.

For many years the government has given its orders for Royal baking powder in preference to all others, it being found that this is the only baking powder that will keep and retain its strength in the various climates to which it is sent by the department.

Whenever the government wants the most trustworthy article and the best in quality it prefers the Royal, as this brand was found to be superior to all others in leavening power by the official chemical tests, made at the instance of the government, in the agricultural department, at Washington.

TOLEDO TAKE WARNING.

Chicago Now Fighting Its Greatest Enemy.

Bad City Government Has Placed the Western Metropolis in a Decidedly Unpleasant Position.

Chicago, March 28.—Mayor Washburne missed an opportunity of hearing many earnest and wholesome things said about Chicago and its present government by failing to attend the 104th regular meeting of the Commercial club at the auditorium.

All the speakers agreed that there was but one remedy for Chicago's present municipal disorder—to raise the moral standard in municipal affairs and influence the better class of voters to do their duty at the polls. John H. Hamline said:

"Our city government is bad in the administration of its finances. Our population has grown in greater ratio than our assessed valuation. This leaves us short of money.

"A business man in such a situation would look about him for other means of revenue. If he possessed a piece of land, he would charge another person a proper rental for its use. What does the city do? It gives away its streets to private corporations for a mere song.

"Only the other day the common council, which had been fighting the Illinois Central in regard to a right of way to the world's fair grounds, turned square around and rented to the same company a piece of land on the lake front, 1,600 feet long by 30 feet wide, for $3,600 a year.

"A reasonable estimate for that property would make its rental at least $86,400 a year. That illustrates the situation. The city is not run in a business way. We do not take toll when we ought. The remedy is found in the Australian balot law and the election of honest and capable men to the common council."

Bold Raid Made by Robbers in New York City.

New York, March 28.—Inspector Byrnes has arrested five men who are said to have been implicated in the boldest robbery that has occurred in this city since the looting of Manhattan bank by Jimmie Hope and his gang.

Last Sunday morning a week the store of John Frederick, meerschaum pipe manufacturer, was robbed. The thieves pried off the shutters from the window and cut the glass with a diamond. Through the hole thus made they entered the store and departed with their spoil.

Nothing was left in the place but the shelves and the show cases. It must have taken a wagon to carry off the property. They replaced the shutters and went away. The police failed to detect the robbery and knew nothing of it until Friedrich reported it.

TO PURIFY CHICAGO.

The Good People of That City Have a Large Contract on Hand.

Chicago, March 28.—"Forget hell and let heaven alone until we close the hells of Chicago and make our city a terrestial paradise." This exhortation was included in the remarks of the Rev. Jenkin Lloyd Jones at a monster mass meeting in Central Music hall Sunday afternoon.

The meeting was called for the purpose of organizing the "Municipal Order League" of Chicago.

The league is to be composed of ladies, and Mrs. Henry Wade Rogers is to be its president.

At this meeting United States Judge Gresham presided for Mrs. Rogers, and a large number of representative citizens were present to assist the ladies. Many stirring speeches were made. The speakers included Judge Gresham, Commissioner Aldrich, Rev. Frank Bristol, Rev. Jenkin Lloyd Jones, Miss Sweet, Dr. Sarah Hackett Stephenson and many others of note.

THE GOOD GRAY POET.

Death of Walt Whitman at His Jersey Home.

The End Came Peacefully After Long Suffering—Departure of a Notable Figure.

Walt Whitman, the good gray poet, died at his home in Camden, N. J., Saturday night after months of severe suffering.

His mind was clear almost to the last, and he approached the end with a serenity that cheered rather than moved to sorrow those who stood about his bedside. His long and enfeebling illness had left its heavy marks upon him.

The rosy freshness of his face was gone, the fullness of his features had disappeared, his bright, benevolent eye had lost its lustre, and among his last words was an expression of joy at laying down the burden of existence.

Though his death was not unexpected, it came somewhat suddenly. Of late he had, if anything, seemed stronger. His last announcement that he was not in need of financial assistance seemed somehow to have spurred him to a determination to be of as little trouble as possible to those about him, and under this impulse there was not for several days noted much of a change in his condition.

The severe weather of the last few weeks, however, unconsciously to himself,

The Good, Gray Poet.

told upon the aged seer, and on Friday night he for the first time gave evidence of the nearness of his end. During the evening a fever set in which increased with the onspeeding darkness. The breaking of the new day found him weak and restless, and at times his mind, stored with so many graceful images, seemed to wander. Soon he sank into an unquiet sleep, from which there was no awakening.

Walt Whitman, the "Good Gray Poet," was born in the little village of West Hills on Long Island, May 31, 1819. He was therefore, at the time of his death, nearly 73 years old. His father was at one time a farmer, and afterwards a house builder. Young Whitman led an open-air life, and this laid the foundation for the superb physical vigor which stood him in such good stead. He was schooled in Brooklyn, and on leaving there became a reporter in New York, where he gained a variety of experience.

In 1855 Whitman published his "Leaves of Grass." The book excited but little attention until one day a letter from Ralph Waldo Emerson appeared in print, strongly commending it and greeting a poet embarked on his long career. This made him a name, and his reputation was from that day established. When the war broke out Whitman sought the field of action, and his boundless sympathy for his fellow man manifested itself in the hospitals.

It is said that during and immediately after the war he personally administered to 100,000 men. After the war he resided at Washington, holding a minor government position, and there he wrote that matchless dirge, "When Lilacs Last in the Door-Yard Bloomed," after the death of his friend, Abraham Lincoln.

Whitman's works have been translated into almost all European languages. His death creates a vacancy in American poetry, which, by reason of his strong originality, can never be wholly filled.

A truthful down-east fisherman tells a startling adventure that he had with a whale near Grand Manan recently. He and his dory were about to be swallowed by the whale when, with great presence of mind and steadiness of nerve, he threw a quid of tobacco, striking the monster full in the eye, while the whale was wondering what struck him the fisherman escaped.

Is highly gratified with Hood's Sarsaparilla. He was badly run down, had no appetite, what he did eat caused distress and he felt tired all the time. A few bottles of Hood's Sarsaparilla effected a marvellous change. The distress in the stomach is entirely gone, he feels like a new man, and can eat anything with old-time relish. For all of which he thanks and cordially recommends Hood's Sarsaparilla. It is very important that during the months of March April May the blood should be thoroughly purified and the system be given strength to withstand the debilitating effect of the changing season. For this purpose Hood's Sarsaparilla possesses peculiar merit and it is the Best Spring Medicine.

"Gentlemen: I have had salt rheum for a number of years, and for the past year one of my legs, from the knee down, has been broken out very badly. I took blood medicine for a long time with no good results, and was at one time obliged to walk with crutches. I finally concluded to try Hood's Sarsaparilla, and before I had taken one bottle the improvement was so marked that I continued until I had taken three bottles, and am now better than I have been in years. The Inflammation has all left my leg and it is entirely healed. I have had such benefit from

Hood's Sarsaparilla

that I concluded to write this voluntary statement." F. J. TEMPLE, Ridgeway, Mich.

"No baking powder is gaining public favor so rapidly as Cleveland's."

One reason is people like to know what they are eating, and the composition of Cleveland's baking powder is given on every label.

So many baking powders containing ammonia or alum are widely advertised as "absolutely pure," the best way is to refuse any brand the composition of which is concealed.

You've seen wrinkled covers—flat thin looking seats, and the suite barely a year old?

The suite was pretty when new — nice frames — pretty goods.

But a handsome cover looks just as pretty stretched over a cheap inside.

So we ask:--

How about the springs and stuffing?

They have to stand the wear.

WANTS INFORMATION

As to Facilities for Shipbuilding at Toledo.

A communication arrived at the customs office this morning from the commissioner of navigation, making inquiry as to the capacity of Toledo's shipbuilding facilities. A reply was forwarded giving a description of Toledo's shipyards. It is the opinion of those in position to pick up such information that a number of revenue cutters are to be constructed and that Toledo will be in for a share.

HE GRABBED

A Hundred Dollar Bill From a Woman and Swore It Was Only Ten.

Henry Terry, was arraigned in the police court this morning charged with larceny from the person. He was arrested on a warrant sworn out by Lizzie Brinckloe, who says that she owed him $10 and he took the $100 bill from her purse and says it was only a ten-dollar bill. She wants $90 in change. The case was continued to March 29.

ROBBED A CLOTHING STORE.

Two Men Held Here on Suspicion—They Were Selling Ladies' Jackets.

Two men, giving their names as Norton and Morris, are held at the police station on the suspicions that they have robbed some country clothing store. They were, when arrested, trying to sell some new, ladies' sacks, cheviots, Jerseys with silk facings and ribbed goods. They were dressed in new clothes themselves. The police would like to hear of any robbery of this kind. It is thought that the men have other stuff hid somewhere.

THE READING ROOMS

Recently Established at the First Congregational Church.

The reading rooms recently opened in the parlors of the First Congregational church are being appreciated by those who have availed themselves of the opportunity of enjoying an hour or more with the best authors. All are cordially invited to come any time during the day or evening and read. Tuesday evening a committee will meet at 5:30 o'clock to see what can be done about adding more permanent literature, that is books, etc., to that which they now possess.

THE PREACHERS

Listen to a Paper from Rev. J. L. McDonald.

Rev. J. L. McDonald read the paper entitled "The Bible and Man's Relation," before the Pastors' union this morning, which was excellent, and called forth an interesting discussion, participated in by Rev. G. M. Candee, Rev. G. E. Hiller, Rev. P. P. Pope, Rev. D. M. Fisk and others.

Rev. P. P. Pope acted as chairman in Rev. J. H. Bethards' absence. Rev. G. H. Priddy will give the next paper on "The Preaching of the Times," two weeks from this morning.

THE SUNNY SOUTH

Is a Myth, According to George Detwiler, Who Is Just Home.

George Detwiler returned home Saturday after a pleasure trip through Florida. "They can talk all they please of the sunny south and balmy Florida, but I was nearer the freezing point the last three days I was in Florida than I ever have been at home. It was not imagination, either, for there was ice frozen a quarter of an inch thick. Of course the people noticed the cold snap more than we would with the thermometer below zero, on account of being unaccustomed to it, as well as unprepared to make artificial heat. They have no natural gas nor even stoves to burn wood or coal, and you may imagine that a great many suffered with the cold. I understand that the fruit crop was badly damaged."

WHO'S HUNGRY?

Surely Not the Democrats, According to the Following.

A bill passed the legislature about a week ago increasing the number of deputy inspectors of buildings throughout the state, and the publication of the fact has developed that there are possibly a few hungry republicans in Ohio, if the following from the Columbus Dispatch, a reliable republican organ, can be believed, and it usually tells the truth.:

Chief Inspector of Workshops and Factories McDonald is being flooded with applications for appointments as deputies under the new law authorizing eight additional. About two hundred applications have already been filed, and the entire state has not been heard from. Some of the best men in the state are among the number, giving him excellent timber from which to make selections.

OHIO REPUBLICAN LEAGUE.

The Committee Meets Passenger Men in Toledo and Decides on a Route.

The railroads make a great hustle for business nowadays. Whenever there is a body of any size at all going anywhere under the sun, there are any number of passenger men ready to swoop down and pick them up. Saturday morning the committee on transportation from the republican league were ready to decide on a route to the national republican convention at Minneapolis, and that fact was sufficient not only to bring out the usual number of traveling passenger agents, but caught the general passenger agents themselves. The meeting was held at the Boody house and those present were: J. C. Pond, J. J. Perry and T. D. Campbell, of the Northern Pacific & Wisconsin Central; James Everett and D. C. Brady, of the Chicago, Milwaukee & St. Paul; Chas. Traver and F. N. Snavely, of the Chicago & Northwestern; W. H. Fisher, L. W. Buckmuster, L. W. Landman and H. A. Wilson, the C., H. V. & T.; J. G. Rupple, Pennsylvania; A. J. Speer, Chicago, Burlington & Quincy; J. A. Granger, C., St. P. & K. C.; W. P. Riffert, Frank Wilson, F. P. Copper, B. & O.

The republican league was represented by W. I. Squire, of Toledo; E. W. Poe, of Columbus; W. Z. McDonald, of Columbus; W. E. Lefton, of Canton; B. L. McElroy, of Mt. Vernon; W. M. Mahn, of Mansfield.

The route selected was the B. & O. as far as Chicago and the Chicago, Milwaukee & St. Paul from there on.

WRECK AT SYLVANIA.

Two Lake Shore Freights Come Together—Two Men Injured.

Early yesterday morning two freight trains collided on the Lake Shore at Sylvania and several cars were badly smashed and one destroyed by fire. Engineer A. H. Curran, was throw into a ditch and badly cut about the head. He was brought to this city and taken to St. Vincent's hospital. Engineer E. Lewis was hurt internally. Fireman Al Fisher jumped from the cab, but escape duninjured.

TOLEDO CYCLING CLUB

Will Elect Officers for the Wheeling Division.

A meeting of the Wheeling division of the Toledo Cycling club will be held this evening to elect officers and decide on a uniform for the coming season. A full attendance is desired, as various other matters of importance connected with the summer's sport will come up.

SELECTED A LOT.

And the Unitarians Will at Once Proceed to Erect a Church

At the business meeting of the society of the Church of Our Father last evening, it was unanimously voted to purchase the lot on the corner of Ashland avenue and Prescott street for the erection of a new Unitarian church, and Judge Lemmon and Mr. James Melvin were elected trustees to purchase and hold the property for the benefit of the society. This lot is one of the finest in Toledo, being virtually on the line of both systems of street cars, the lecetric Belt line and the Ashland avenue cars. The society will proceed at once to the erection of a new church

TWO TRAMPS

Attempt to Rob a Man on Huron Street Early Sunday Morning.

Early Sunday morning two tramps attempted to rob a man on Huron street. The gentleman beat them off, however, and escaped. Officer O'Brien heard of the affair, but the gentleman who was attacked made no complaint. Two fellows have been arrested, however, on suspicion. People who meet with such adventures should report at once to the police station, and nine times out of ten the offenders could be caught and put where they could do no further damage.

STUCK ON TOLEDO,

And Stuck When He Gets Here—A Man Who Couldn't Get Out of Town.

Wm. Lee, a tinsmith hailing from Detroit, has had hard luck since he struck Toledo. He was sent to the workhouse some time ago, and on his release was gathered in inside of an hour's time and sent up again. This happened several times. This morning he was in police court again charged with begging. He begged the court to let him go, saying that he couldn't somehow or other get out of the Jonah town. He was arrested before he had been out of the works an hour. The court gave him $10 and 10 days, and suspended sentence two hours to give the man time to shake the dust of Toledo from his feet. The way Lee flew out, down the stairs and out of sight was a caution.

LOCATE IT, PLEASE.

A New Tin Manufactory Established in Toledo.

Saturday's Canton Repository has the following relative to a discovery made by Postmaster Brown. The newspapers are always glad to note the establishment of new manufactories, but this one must have escaped notice. Where is it?

Hon. J. M. Brown, of Toledo, a widely known Ohio republican, talked last week regarding the outlook for business in that part of the country, and pronounced it most promising. "We had had a manufactory on a large scale of tinware in Toledo for a number of years," said Mr. Brown; "the tariff on tin plate has not interrupted the prosperous progress of this enterprise, and, since the passage of the McKinley law, a new factory devoted to the same line has been established in the city."

ELECTRICAL WORKERS' UNION

Adopted Resolutions on the Recent Trouble Brought to Light.

At the last meeting of Electrical Workers' union, No. 8, the following was unanimously adopted; and its publication requested:

Whereas, It has come to the knowledge of this organization that a certain society banded together ofr the purpose of deparing a class of American citizens from enjoying the just-given right promised to them in our constitutional amendments; and

Whereas, Certain members of labor unions have been induced to become members of same, and as it is a well-known fact that all members of labor organizations violate their obligations and pledges made to their fellow workmen by joining said organization, be it

Resolved, That we, Electrical Workers' union, No. 8, denounce any combination formed for the purpose of interfering with the righteous belief of any class of citizens of America; be it further

Resolved, That it is the duty of all labor unions to weed out such men, as they are a dangerous class to all law-abiding citizens, and a detriment to the progress of the laboring class in general.

It is understood that the German Carpenters' union has passed similar resolutions, and that other unions of the building trades, in meetings held Saturday evening and yesterday, took similar action. The meeting of the Building Trades council this evening will develop the feeling in the different unions, as a demand will there be made that the council go on record indorsing the sentiment that union men must stand by one another, regardless of religion.

CLUBS AND SOCIETIES.

The Saturday Night Meeting at Clark's Hall—Announcements.

The pouring rain on Saturday evening did not prevent a good attendance at Clark's hall, where the question was discussed: "Which has done most for women, suffrage societies or labor organizations?" The discussion was lead by Mrs. C. Q. Murphy for suffrage, and for labor by Mrs. A. P. Stevens, and was participated in by Mesdames Ellen S. Fray, Rosa L. Segur, Mary B. Clay, of Lexington, Ky., and Charles R. Martin.

At the close of the discussion the following resolution was adopted:

"Resolved, That suffrage societies and labor organizations are working toward the same ends for women, and both are doing all they can."

The meeting was under the auspices of Joan of Arc assembly, K. of L., and was ably presided over by Miss Katharine Calkins. It was an unexpected but delightful addition to the meeting to hear Mrs. Clay talk of conditions in the south.

Announcements.

The committee appointed at the late Social Purity conference for "Travelers' Aid and Girls' Home" work, is holding a meeting this afternoon at 1607 Adams street. Mrs. V. H. Randolph is chairman of the committee. The other members are: Mesdames Fray, Nicholas and Farrar.

Woodbridge W. C. T. U. meets to-morrow afternoon at 2:30, with Mrs. J. H. Van Arnum, 513 Locust street.

The office of General Manager A. G. Blair of the Wheeling & Lake Erie railroad has been transferred from the Produce exchange to the depot building on Cherry street, where elegant quarters with hardwood floors and frescoed walls have been fitted up and elegantly furnished.

THEY WILL BUILD.

Ashland Avenue Baptists Decide to Proceed With the New Church.

At the Ashland Avenue Baptist church yesterday the committee which has in charge the raising of funds for a new church reported that in the past two weeks $17,000 had been subscribed for this purpose with but little solicitation. This report was very encouraging and by a unanimous vote the congregation decided to go on with the work and build the church.

SEMI-ANNUAL REPORT.

The Infirmary Directors File With the County Commissioners.

The infirmary directors to-day filed their semi-annual report with the county commissioners. The expenditures for maintaining the infirmary for the half year was as follows:

City	$ 8,315 87
Township	2,350 17
County house	5,316 09
Total	16,002 13

THE POPE MATTER.

Two Suits Filed Against the Agent and His Bondsmen.

The Pope complications have been carried into common pleas court.

Two cases were filed with the county clerk to-day. The first is the Trades Insurance company of Chicago against Elbert A. Pope and Sewall S. Parker, his bondsman. The petition alleges that between January 1, 1892, and March, 1892, Elbert A. Pope received $341.76 for which he failed and refused to account for.

The other petition was filed by the Imperial Fire Insurance company of London against E. A. Pope and Seawall S. Parker as surety to recover $596.17 on similar grounds.

OTTO ENGWERSON

Delights Columbus People With His Fine Singing.

At the concert recently given by the Humboldt Verein, of Columbus, Mr. Otto Engwersen scored another success, the following notice being clipped from the Columbus Sunday morning News: "Much interest had been centered on Mr. Otto Engwersen, who was to make his debut before a Columbus audience, on this occasion. This gentleman is a new comer to Columbus, but judging from the pronounced success he made Sunday evening, it is a fact that he made a decided hit. His manner is unassuming and pleasing, while he possesses a voice of an exceptionally fine quality, combining it with a correct method and clear enunciation. One feels it a delightful treat to listen to him, since he gives you the impression that it is no task at all for him to sing, and that if he liked he could fill two such rooms with his voice. On the occasion of Mr. Engwersen's second appearance at a concert Tuesday evening he met with equal favor, the music hall being full to overflowing with a fashionable audience, who appreciated the artistic manner in which he rendered his selections.

"Miss Rose Clause was pianiste and accompanist upon this occasion, and as usual proved herself a favorite, receiving well-merited applause.

THE TRUCK TURNED OVER

And Capt. Lawler Was Injured—An Accident on the Way to a Fire.

At 6:40 o'clock this morning an alarm of fire was sounded from box 312. Capt. Richard Lawler, Andrew Keaton and Henry Ebner were on the truck and making for the locality of the fire at full speed, when suddenly at the corner of Superior and Jefferson streets, the whole thing turned over, throwing the men with some force on the pavement. Capt. Lawler's left leg was severely injured. The truck was taken to M. J. Cooney's to be repaired. The hind axle was sprung. The firemen do not know how the accident occurred. It is probable that the street was quite slippery at the time.

The cause of all the trouble was an incipient blaze in a small shed at the rear of Dougherty's lime-yard office, on the corner of St. Clair and Washington street. The flue from the office stove extends through the roof of the shed and it is supposed the fire originated from this. The loss is slight.

Quite a serious fire occurred in the Saratoga block, on Cherry street, Saturday night about 11:30. As near as can be ascertained the flames originated in the millinery store owned by Mrs. Wilhelm, as the stock of goods in that store was totally destroyed, entailing a loss of about $1,000, which is partially covered by insurance. The building is damaged to the extent of about $300, with no insurance. The origin of the fire is unknown.

DAVID GRIEVE.

Rev. A. J. Jennings Discusses the Author and His Conclusions.

A large audience gathered at the Church of Our Father last evening to listen to Mr. Jennings' interpretation of David Grieve. Mr. Jennings began by referring to Robert Elsmere and said he read David Grieve to find out what Mrs. Ward designed to teach in this book. He concluded her object in writing the novel was not to show the influence of heredity, although this seemed at first to be the object of the book. It was not a religious novel, and the speaker did not think it was meant to illustrate the righteousness of the profit sharing business, although this was a feature of the book, as was also the question of marriage.

Mr. Jennings thought the value and interest of the book was to show our duties and obligations to the vicious and disagreeable classes in our communities. This was illustrated in David's relations to his sister Louise—Louise was vicious, immoral, disagreeable, and yet David was devoted to her all his life. Such should be our relation to the poor, disagreeable and unfortunate of our land. David's influence for good over his sister was restricted from the fact that David himself had sinned. The thought illustrated by this was "Thou must be true theyself if thuo the truth wouldst teach."

Altogether Mr. Jennings thought this was a very strong book and much more interesting than Robert Elsmere. A quartette choir composed of Mr. Percy Howe, tenor, Mrs. Sambora, contralto, Miss Smith as soprano, Mr. Hahn, basso, and Mrs. Wheeler, organist, furnished music upon the occasion.

The election of the entire democratic ticket in Toledo this spring will be in the interest of economy and better government.

The shipbuilding statistics for New England for 1891 show that 25 per cent. of the entire construction was sailing vessels. This does not look as though steam has driven the sailing ship from the waters.

The election of Louis Steuer to the office of street commissioner would insure cleaner streets at less expense. Every citizen will favor more efficient service, and every taxpayer will urge economy. There is every reason for, and none against, the election of Mr. Steuer.

In the Third ward the republican candidate for alderman is the special representative of corporations which will want legislation this year by the common council. For this reason he ought to be defeated. The tax payers do not want any jobs put up in advance. There are plenty of them to look after when they show themselves from time to time.

Secretary Foster in an interview on the question of an international monetary conference says: "Should President Harrison be re-elected the British financiers will be more favorable to an international (silver) agreement than they are now." Dollars to buttons Secretary Foster never heard one word in England that justifies him in that statement. If he did, let him name the "British financiers" in the case.

If we have a suspicion, and it is not to be evaded, that President Harrison makes the most of the Bering sea complication, we can at least comfort ourselves with the knowledge that it is not he alone who is "playing to the gallery." Lord Salisbury is in desperate straits as a leader, also, his ministry growing in unpopularity, and his parliament trembling on the verge of dissolution from day to day. The poor, innocent baby seals furnish the opportunity for jingoism on both sides the water, and it is made much of, in England as well as in Washington.

Still the cost piles up for that census of 1890, which, when published, will be discredited everywhere, and which is already repudiated by statisticians. Costly and unreliable, the end of the cost is not yet in sight. In Superintendent Porter's last report, he said $1,000,000 would be "ample" to complete his work. Last week the special committee which Secretary Noble appointed to examine the census bureau reported that the work still undone would require $2,000,000, and Mr. Porter has hastened to accept and indorse the statement. A Ten Million Dollar census on which no man can rely is a costly affair for a nation with a depleted treasury. But while Raum remains, who has the heart to criticise Porter?

THE P. OF I. DECLARATION.

The Patrons of Industry is a non-political, industrial organization. The supreme body in that organization was in session in our city during the last week, and put forth a declaration of principles in thirteen sections. Each and all of these deal with legislation, either national or state, and are demands for enactment of laws or for changes in the administration of laws. As a whole, the declaration appears to place the Patrons of Industry upon the St. Louis platform of the industrialists, though delegates to this supreme council which has adopted the declaration disclaim that intention, and it may well be the other industrialists would disclaim sympathy with some parts of the declaration.

The recommendation that congress be petitioned to extend the free delivery of mail to the rural districts, and the demand for more stringent laws regarding the manufacture and sale of adulterated or spurious butter and lard, are the two measures of the declaration most exclusively concerning the farming class. All taxpayers will be willing to join in the demand that "public institutions become self-supporting as soon as possible," and will wish the council had decided how this can and shall be effected. From several of the principles set forth it is evident the farmers, so far as this organization speaks for them, are antagonistic to corporations and are governed, in demanding restrictive legislation concerning these, by the feeling that corporate interests have been favored unduly in the enactment and administration of laws.

The more remarkable, therefore, is the sentiment of the declaration concerning the national revenue laws, which is for "such revision as will protect the farmers, laborers and producers against the ruinous competition of foreign production and cheap labor." It is impossible to read this demand with its context without coming to the conclusion that this supreme council was of opinion "farmers, laborers and producers" would be benefited by increased protective duties.

In this the Patrons of Industry declaration differs from the position of other industrial organizations, and it may with all courtesy be said that the framers of this declaration in this section showed an utter inability to grasp the real industrial situation, to reason from cause to effect, to understand that if corporate enterprise is oppressing producers, in such class legislation as prohibitive tariff lies the power of the corporations to work this injury.

The farmer is tariff-taxed upon every implement of his husbandry; upon everything he wears and buys, and by revenue laws which, as Secretary Blaine says, has not opened a market for another bushel of wheat. To ask for higher tariff is to petition for an increase of all his burdens, and a further restriction of his market.

The Bee would not like to characterize the framing and adoption of this part of the declaration, as anything worse than an honest mistake, but is confident it is not the sentiment of its own farmer-readers who may be members of this organization. They will never indorse it.

The German Year Book for 1891 gives much interesting information relative to educational institutions, some of it upsetting popular belief. For instance, it is Italy and not Germany that leads the world in the number of its universities. Germany comes second, the United States third, Austria-Hungary fourth, and Great Britain falls in the fifth place. The number of universities in each of the countries mentioned is as follows: Italy, 21; Germany, 20; the United States, 13; Austria-Hungary, 11; Great Britain, 10. Scotland leads the world in the number of pupils, proportioned to population, taking this higher education, having one student to every 454 inhabitants. The United States has one to every 4,279, our yearly adopted foreign-born citizens preventing a better proportion.

THE DYING SWAN.

Walt Whitman has laid aside that clothing of mortality which has for so many years been his grievous burden. His death has long been expected, and it ends a physical life so painful and so desolate that none can sorrow that the end has come. His farewell to the world he loved—and he loved all things animate and inanimate—appears in the current number of Harper's Magazine.

Two portraits of the poet are given in the number, one accompanied by verses which he wrote by request, and which will now remain forever his last message. The verses are not without those faults of expression and construction which mar all his work, but the critic is fain to touch them tenderly now.

"Death's Valley" becomes the dying song of the swan, and there are passages which make the composition worthy of highest praise. It is a courageous song from a man looking Death in the face with eyes that do not falter. The courage is not assumed, nor is the expression of it affected, for Whitman, as he here said,

—for long, O Death, have breathed my every breath
Amid the nearness and the silent thought of thee.

He claims his right to make a symbol of Death also because he has looked upon it in many phases, and he sings briefly

Of the broad blessed light and perfect air, with meadows, rippling tides, and trees and flowers and grass.
And the low hum of living breeze—and in the midst God's beautiful eternal right hand.
Thee, holiest minister of Heaven—thee, envoy, usherer, guide at last of all. * *
Sweet, peaceful, welcome Death?

Who can mourn for one who passes from life with such triumphant strain as this?

THE WAR GOES ON

McKinley's Friends to Get Even With the Foraker Crowd.

Columbus, O., March 28.—The Cincinnati water works bill is dead, never to be resurrected during the balance of this session. The turning down of Gov. McKinley and his friends did it.

Senator Eckley, of Carroll; Carpenter, of Fayette, and Nichols, of Belmont, are against it openly and above board and say the bill is shelved.

The utmost indignation is expressed by Gov. McKinley's friends over his treatment by the Foraker element.

HEADED FOR THE NORTH.

The British Man-of-War Warsprite Off for Bering Sea.

San Francisco, March 28.—The British man-of-war Warsprite, flagship of Admiral Hotham, left Santa Barbara yesterday morning and will arrive here to-day on her way to Bering Sea.

M'KENNA HAS RESIGNED.

Washington, March 28.—Representative McKenna, of California, has addressed a letter to the speaker informing him that he has forwarded to the governor of his state resignation as a member of the house of representatives, to take effect to-day.

MADE IT WARM FOR HIM.

Harwood, Tex., March 28.—R. L. Davis, editor of the Waelder Square Dealer, was hanged in effigy here Saturday night and egged last evening as he was boarding the eastbound train, on account of an article published in his last week's issue concerning this town and its people.

CURRENT COMMENT.

Minister Whitelaw Reid says that he does not intend to be a candidate for the vice presidency. All the greater, then, the chances of his getting there.—New York Telegram.

Russell Sage positively refuses to settle with the young man who says he was held up between the millionaire and the bomb; and so the case goes to court. The caricaturists should be on hand.—Boston Herald.

There are caves in the Adirondack mountains. Why cannot Messrs. Drayton and Borrowe be induced to inhabit a brace of them for a few years? The public gaze must be wearisome to these high-strung noblemen.—New York Advertiser.

To all republican presidential dark horses: Whoa! There is no fodder in the direction in which you are heading.—Chicago Tribune.

There is something of a general disposition in connection with the easy "dissolution" of the Standard Oil trust to look for the gleaming of white eye-balls beneath the outer sticks of the wood-pile.—Providence Journal.

When Venezuela received the president's retaliatory message she smiled and increased her order for English goods. England will use her coffee if the United States refuses it. And England will pay for it in goods which this country has been shipping to Venezuela. Retaliation is, unfortunately, a game which two may play.—Kansas City Times

The democratic party is again having an old-time struggle with financial quacks. If it overcomes them at the Chicago convention it will have enough strength left to defeat the republican enemy next November. But if a financial quack should be nominated at Chicago it would be mighty hard sleddin' for the party in all the doubtful states.—Buffalo Courier.

England can not justify Lord Salisbury's action in refusing the modus vivendi, by declaring that President Harrison is governed by political considerations. He is unanimously sustained in his position by the democratic senators, who, if possible, are even more pronounced than the republicans in the determination to defend the rights of the United States. Patriotism is not a partisan quality.—Indianapolis News.

MENTIONED ON THE STREETS.

That the Hocking Valley's new parlor cars are beauties.

That the cyclers will map out a little of the season's pleasures to-night.

That Police Clerk Fogarty has not been himself since the convention.

That the University extension lecture course has been eminently satisfactory.

That Saturday's issue of the Bee was not to be sneezed at for a first-class newspaper.

That Eg Doville has gotten hold of the hot end of a poker which will leave a severe burn.

That the workingmen of Toledo are opposed to the Boyer bill amending the garnishee law.

That the Union Veterans Union is growing rapidly, and will soon be on a substantial basis.

That arrangements are being perfected for balls in all parts of the city on Easter Monday evening.

That the portrait of Dan McCarthy on the bill-boards is a dead ringer for our own John Kumler.

That Coalwell is not pleased with the headway he is making against George Leibius for police clerk.

That a democratic victory is certain next Monday for the city ticket and most of the council nominees.

That Louis Steuer is following up Mr. Bower this week, and will keep the grass from growing under his feet.

That Frank Hake has given up the fight in the Sixth ward, and Sanford Cook will have a walk-away.

That the next 30 days will be lively in republican circles figuring as to which element will control the organization in the state.

That with vacation in the public schools, the daily matinees at Wheeler's this week given by the Wilburs will be somewhat largely attended.

That Sprague has not yet withdrawn in the Second to give Moxie a show. What a race Shafer and Moxie, two good republicans, would make.

That Col. John H. Puck has the support of citizens in general outside of the republican ward politicians in the race for police commissioner.

That the C., J. & M. will pass into the hands of the new management on the first day of April, and the C., H. & D. lease talk will be revived.

That Charley Griffin is a bigger man than either Governor McKinley or Senator Sherman, hence he will be chairman of the republican state convention, and the Foraker people are on top.

That the men who are now so disgusted with Shafer in the Second ward will be seeking his influence within three weeks to assist in packing the caucus for delegates to the county convention.

That the Shermanites in Toledo are wondering how defeat came in that little scrimmage at Columbus when Mr. Griffin trced the temporary chairmanship plum. As the song goes, they're after him from this time on.

That Col. Joe Bonner, in an interview with a New York paper, claims that with the duty increased on brushes from 30 to 40 per cent. he sells more goods than at the reduced rate. That's a likely story, but it goes from the Colonel.

THE SPRING CAMPAIGN.

Louis Steuer, Nominee for Street Commissioner,

And a Mention of the Gentlemen Who Make Up the Democratic Ticket.

Louis Steuer, the democratic nominee for street commissioner, is a man who should have the entire confidence of the citizens of Toledo. Born in this city in 1855, he has lived here all his life. He was not ushered into the world with a gold, or even a silver spoon, in his mouth, and what he has made himself has been accomplished only by the hardest of work. He had no one to boost him up the ladder of success, but alone and unaided, by his industry, and honesty with those whom he came in contact has made for himself an enviable record. He obtained the foundation of his education in the public schools, but not having the advantages afforded many others, he was early in life compelled to go to work and he did it bravely, taking a position as a common laborer in Hall's brick yards, where he was employed quite a number of years. Later he worked at the Buckeye tobacco works as assistant superintendent. He was employed at one time under Street Commissioner Geelan. During one year he was porter in the United States Express company's office. In 1879 Mr. Steuer entered the employ of Pliny Watson & Co., as order clerk, a position that he filled with credit to himself and his employers. At present he is receiving clerk at Secor, Berdan & Co.'s establishment, where he has been for 13 years.

Mr. Steuer has a host of friends, as he is a man whom it is a pleasure to meet. That he will prove a strong candidate no one will attempt to disprove. His party and all who know or have met him have strong confidence in his ability to serve the city in an upright, honest, business-like manner, and he will be triumphantly elected over the incompetent present incumbent. Vote for Louis Steuer.

Look at the democratic nominations for the board of councilmen: Rudolph Mathias, of the First ward, is a painter by trade, and belongs to the numerous Mathias family, who have been identified with Toledo and its growth for years; Theodore Schmitt, of the Second, is secretary of one of the prominent building and loan companies, which is composed of some of Toledo's best citizens, who would not make choice of other than a good man for so responsible a position; Edwin D. Simonds, of the Third, is a popular traveling man, with S. C. Schenck, a man of fine attainments and sound judgment; John Daly, in the Fourth, who served acceptably for two years in the board, and was honorable in all his dealings; Frank Coleman, of the Fifth, who for four years has had the courage of his convictions, and grappled with many important matters of legislation, and was honored by being chosen vice president of the council; Sanford W. Cook, the East Side druggist, a man thoroughly identified with that part of the city, and who was a conscientious member some years since in the same board; John Felker, whom Seventh ward residents and his friends about the city know would make a splendid councilman; L. W. Walker of the Eighth, who because of his honorable service was renominated by acclamation; and A. E. Bay, of the Ninth, than whom a better councilman could not be found. There is scarcely room for comparison with their opponents. With these men in the council the profligacy of the past would cease, and city finances and legislation would be considered in a spirit having in view solely the benefit to be derived by the municipality. They are all men worthy of support, and the exigencies of the time demands their election

The democratic ward caucuses could scarcely have bettered their aldermanic nominations. Fred Schulty, in the First, is a level-headed business man connected with the Western Manufacturing company, and lives on Galena street, a portion of the city which has not been represented for years in the council; Sylvester Lamb, of the Third, is a popular gentleman, in favor with the people of all classes; M. Graham, of the Fifth, who is just closing a term of two years in the board, where he has mainly been on the right side of all questions; W. R. Hodge, in the Seventh, a man interested in the prosperity of the ward, as well as the city in general; and Fred Wolfman, in the Ninth, who is a live, go-ahead merchant, with good judgment. These men will undoubtedly command the full vote of the party, and add to it materially from the opposition, at least that portion of it who desires to see the city lifted from its present shiftless and unsatisfactory condition.

George B. Hull is a substantial business man, of the firm of Brown, Eager & Hull, and is as much interested in the welfare of the city as a citizen can be. The water works board, for which he has been nominated, demands the best material to be had. During the coming year the trustees will have to consider many matters of interest, and especially the refunding of half a million of bonds, for which no provision has been made for their payment. The improvements in the machinery at the pumping station and other important subjects will require careful consideration. Mr. Hull is just the man the city needs as one of the trustees, and when such gentlemen consent to fill such a position, there should be no hesitancy about electing them. What is needed to-day in the city government is business men, and it is to be hoped Mr. Hull will be elected.

Toledo's streets for the past two years have been the dirtiest ever known. Bower has paid little attention to them. His principal occupation has been playing pedro at Jake Hoffman's. The team, paid for by the city, can be found hitched in front of this place at all hours of the day. Ought there not to be a change? Could the streets get worse than they have been? One term has demonstrated the unfitness of Bower to fill the office. Now let Mr. Steuer show what a man who attends to the business for which he was elected and is paid for handsomely, can do. Vote for Louis Steuer.

While talking about workingmen on a ticket, it may be said that the whole line of democratic nominees are workingmen. It is headed by Louis Steuer, who has for 13 years worked for Berdan & Co.; there's George Hull, the busiest kind of a workingman, for water works trustee; F. C. Lauer, gas trustee, employed in the Wabash car shops; Tom Rooney, for justice of the peace, a printer; George Leibius, a tailor, and the rest of the nominees are like the above, daily toilers, not jawsmiths. In fact, the democratic party is made up of workingmen. Vote the democratic ticket.

Capt. Jake Weier, who was defeated by a scratch for police clerk in the republican convention, is to be kept quiet until after election, with the promise that in the event of Doville's success he will be made chief of police. Jake has had promises from other quarters which were not kept, and he will not possibly place much faith in this other little arrangement.

Mr. O. A. Browning is one of Toledo's best known citizens. He has been engaged in business here for years, and has always had the respect of the community. Because of his business qualifications he was nominated for gas trustee, a board which sadly needs a directing hand. Vote for Browning. A better selection for the office could not be made.

The fact is heralded that Mr. Voit is a workingman, and should be elected gas trustee. His opponent, J. C. Lauer, is no less a workingman, employed in the Wabash shops, and what is more, has been a resident of Toledo for years, pays taxes, and has assisted in making the city what it is. Mr. Lauer will make a good trustee. Vote for him.

Councilman Walker has been a faithful representative of the Eighth ward for two years. He is a candidate for re-election, and really ought not to have had any opposition. He is a plain, every-day workingman, and should have the cordial support of all classes. Vote for L. W. Walker, and thus indorse a good officer.

Sylvester Lamb will break the Third ward record of never having elected a democrat. It will not be a democratic victory so much as it will be a victory of the people, who have tired of having nominations fixed for them by street car and other interests. Lamb has the ability to make a first-class alderman.

Mr. Sam Kohn, who is on the ticket for the school board in the Second ward, received his education in Toledo's public schools. He is acquainted with their needs, and is competent to pass on all measures for their improvement. He is young and active, and would make an excellent member.

There is a spasm of virtue among some republicans which is wonderful to behold. How bad a democrat appears who keeps a saloon, but how little is discovered against a republican candidate who is in the same business. Consistency, thou art indeed a jewel.

Alderman Graham's re-election is now assured by a large majority, since the virulent attacks made upon him. The old Fifth will prove its reliability in the democratic faith on election day by electing Graham, Coleman and Tillman, the full ward ticket. Mark the prediction.

Mr. Zirwas has been a member of the board of education for years, and has a record of which any man may well feel proud. He is a candidate for re-election, and the Fourth ward will honor itself by returning him by a large majority.

Arion E. Wilson is a pushing and enterprising gentleman, well and favorably known. He has the qualities requisite for a good member of the school board, and the Eighth will be only consulting its own interests to elect him.

Dr. Hathaway will be chosen to succeed Dr. Beckwith as member of the school board from the Sixth ward. This is right. The doctor is a valuable man whose services could not fail to be beneficial.

George Leibius will have an opportunity to learn of the number of friends he has in Toledo on election day by his majority. Coalwell will have reason to wish he had allowed Jake Weier to make the race.

Councilman Bay and Alderman-to-be Wolfman, in the Ninth ward, are making a thorough canvass, and there appears to be no doubt of their success. Both are good men.

So there is an independent candidate in the second ward for the council. Well, Schmidt will defeat Best and Shafer, and a few more if trotted out.

Messrs. Scott, Rooney and Spain are fully as competent as their opponents for justices of the peace, and the three should be elected. Mr. Scott has filled the office before, and Mr. Rooney and Mr. Spain have the qualifications necessary to do good work.

John Kani, the democratic nominee for constable, is a leader among the Polish residents of the city, and is also a competent gentleman to fill the office for which he has been named. Kani will get a big vote from the Poles, and this will be added to by the full democratic contingent.

A TAXPAYER

Submits a Few Questions to Street Commissioner Bower.

To the Editor: Mr. Bower is a candidate for re-election, and I would be glad to have him give an answer to the following:

Is it true, Mr. Street Commissioner, that you have two lady bookkeepers and the citizens and taxpayers must pay them?

Is it true that there never was but one bookkeeper at any one time before your time?

And how is this? It is said when city pumps were out of repair you forbid the city pump repairer to fix them, and hundreds of citizens could get no drinking water and were compelled to drink river water, and did you tell the same pump repairers to go your house and repair your pump, so that you could have drinking water, and didn't they repair your pump, and did you have a lot of other work done by the city men which the citizens and taxpayers paid?

Now, come, Mr. Street Commissioner, tell us and please tell us with an affidavit so that no one may remain in doubt.

TAXPAYER.

Governor Merriam Takes Vigorous Action With Crooked Officials.

Minneapolis, Minn., March 28.—Gov. Merriam has telegraphed from New York ordering the suspension from office of County Treasurer H. O. Peterson.

This action was the result of a report recently submitted by the state examiner showing a loose state of affairs in Peterson's office.

It was shown that an item of over $1,200 received by Peterson had never been entered on the books.

Peterson paid the money to the county out of his own pocket, laying the blame for the error on a deputy who had been discharged.

The suspension is made under a state law giving the governor the power.

TO DIE ON THE CROSS.

Awful Attempt at Suicide of a Prussian.

He Thought His Sins Could be Best Atoned for by Dying on the Cross.

Berlin, March 28.—Near Koenigsburg, East Prussia, a man named Puschke recently crucified himself under the impression that he ought to die in the same manner as the Savior.

Puschke was, until recently, a harmless person, but became a religious crank through the teachings of a preacher who has been creating considerable excitement in East Prussia.

After attending a religious meeting some weeks ago in which the death of Christ was described with much realism, Puschke conceived the idea that his sins could best be atoned for by submitting to the same form of expiation.

He procured some stout cord, and tied his own legs in such a way that it would be very difficult, if not impossible, to raise himself after he had lain down.

What he did afterwards can only be judged from his condition when found, as no one was present at the horrible affair. His feet had been fastened with heavy nails to the board. Then lying on his back he had pounded a nail through his left hand with the right, nailing the left hand firmly. The right hand remained free and in this the maniac took a knife and repeatedly stabbed himself in the breast.

He became unconscious from pain and loss of blood and was in this condition when his wife returned. He called for help and it took great exertion to pull out the nails and release the victim. He was bathed in blood and was at first supposed to be dead, but gradually recovered consciousness. While his wounds are of a most serious character, it is believed they are not necessarily fatal.

Kentucky produces about 33 per cent. of the hemp raised in this country and a large proportion of the whisky. This is an appropriate combination. When a sufficient amount of the latter is consumed it frequently calls for the former to finish up the work.

Servants are growing scarcer and scarcer in England. This country has drained it considerably, and now the demand from Australia is getting to be very troublesome.

"Cool as a cucumber" is scientifically correct. Investigation shows that this vegetable has a temperature of one degree below that of the surrounding atmosphere.

HEALTHY. HAPPY. WHY?

Is he a bright child? Does he look healthy and happy? He is bright, and he is both healthy and happy. He is the little son of Mrs. Henry T. Bowers, wife of the well-known contractor and builder, who resides in Dorchester avenue, South Boston. Mrs. Bowers has had quite an experience with her children, which experience we give in her own words, as follows:

"I have a little boy two and one-half years of age, the perfect picture of rugged health, and also a little girl of four. I attribute their good health and good temper to the use of Dr. Hand's Remedies.

I have used, as occasion required, the entire line, and have had very marked results from the Colic Cure, Cough and Croup Medicine, and the Pleasant Physic. I have never had any but good result from the use of any of them."

No mother would make a statement like the above unless she knew wholly whereof she affirmed.

A little book, illustrated, full of sense and suggestion, will be sent to any one in the land, FREE.

A PLACE FOR EVERYTHING.

Oh, dear, I knew it would be so;
I never can do right:
And everywhere I care to go
Folks scold with all their might.

I got up late to-day I know,
I must admit I'm lazy.
But picture to yourself my woe
To find my things all crazy.

Box, sponges, pencils gone astray,
Hats, aprons laying 'round,
Just where they would be in my way;
My bag could not be found.

But now I'm growing up you see,
And I am doing better;
What everyone does say to me,
I obey to the letter.

No more boxes are here and there;
No more pencils astray;
No hats or aprons lying 'round,
That are right in my way.

But everything is in its place,
Just as it ought to be;
You can tell by my happy face
I'm trying to be neat.

A note of color runs through the handsomest confections prepared for the coming season. Where a favorite tint is employed for sleeves, vest, girdle and neck ruche, the fabric, to be stylish, should be veiled with net, or seeded with delicately cut jet nail heads or clous.

When the line of the Chesapeake & Ohio railroad, which had been completed as far as White Sulphur Springs, was projected from there to Ohio, C. P. Huntington, in 1869, personally surveyed the route, traveling in a batteau from Hinton to the Kanawha and making a rough trip of it.

Snails' eggs absorb moisture. The most singular thing about them, however, is their marvelous vitality. They may be burnt in a furnace and thus reduced to a powder, yet on the application of moisture they swell and regain their vitality, hatching out as freely and successfully as if they had been let alone.

In the cold regions of the far north, where timber or bark is difficult or impossible to get, boats of skin are almost exclusively employed. To provide material for them the native hunter relies upon the seal, the sea lion and the walrus. Many patterns of such crafts are utilized in the fisheries pursued among the Alentian islands and elsewhere on the Alaskan coast.

The residents of Minnesota were treated to a superb display of the aurora borealis on March 8. "The northern heavens were robed in green last evening until the stars were obscured. Wave after wave of quivering lights swept up from the horizon like folds of fleecy lace until to the very zenith the sky was shut out by the shifting shadows, and the earth seemed hemmed closely in."

The blacks in Dschesire mix their tobacco with water and natron, so as to form a kind of pap, which they call bucka. They take a mouthful and roll it about for a time with ther tongue. There are regular bucka parties given.

There is some danger in handling the delicate flower. Florists ascribe their most serious hurts to poison absorbed in hothouse productions which have undergone a strong vermin-killing process. A number of dealers infer that, after many applications, the juicy parts of the plant become impregnated with poison; for, although in the course of arranging flowers for sale the stems get well washed, the slightest thorn-punctures or scratches will cause tedious, uncomfortable sores.

As an illustration of the timber wealth of the south, the state of Alabama alone is believed to contain at present about 14,390,000,000 feet, board measure, of standard yellow pine, which at the present rate of consumption would last a century, without reckoning the new growth in the meantime. There are large quantities of other timber, including oaks of the different varieties, poplar, hickory, chestnut, red cedar, ash and walnut. Along the Gulf coast fringe of the state there is a plentiful supply of cypress.

Canada's ministers of customs, finance and justice and her premier all wear hair on their faces. The last, the Hon. J. J. C. Abbott, has flowing side whiskers, in proportions somewhat of a happy medium between Dundreary and the Burnside types. The Hon. M. Bowell, minister of customs, has a soft white beard all over his cheeks and chin. The Hon. George E. Foster, of finance, chooses the dangling chin beard of what is called "the billy-goat" variety, while Sir John Thompson, minister of justice, shaves his facial area save a little truck patch under each ear.

A syndicate of western capitalists has purchased 1,600 acres of land lying between Alexandria and Mount Vernon, La., for about $140,000. The same syndicate has secured the rights of way over the streets of Alexandria for electric railway, which will now be constructed at once, embracing the principal streets of the city, and running from the steamboat and railway depots to Mount Vernon, the whole scheme involving the expenditure of at least $500,000.

ONLY A PANSY BLOSSOM.

He stood at the gate and looked over into the pretty yard where flowers were growing, and seemed to be pleased at the sight, and Aunt Alice, looking out of the sitting room window, saw him and wondered if the flower at which he was gazing with a kind of dreamy look in his eyes did not revive old memories in the breast of this man who was, to all outward appearances, at least, a common tramp.

"He looks at the flowers as if he knew them," the tender-hearted woman said. "Perhaps he would be glad to have some of them."

She went down the veranda steps. The man started when he saw her coming, and would have gone on, but she stopped him.

"I saw you looking at the flowers," she said. "Would you like some? I am so fond of them myself that I like to share the pleasure they give me with others. You are welcome to some, I assure you."

"I like them—I always did," the man answered, hesitating, and then turning back to the gate. "But—wouldn't it look rather—well, say inconsistent"—with a short, hard laugh that had a bitter sound in it—"to see a man like me with a handful of pretty things? I hardly think the flowers would like it."

"I think it just what the flowers would like if they are what I give them credit for being," answered Aunt Alice. "I think they were given to make us better, happier, and the world brighter. If I am happier than you are you need them more than I, and it must please the flowers to go where they can do the most good."

She broke off some roses from her pet Perle des Jardins bush, and put a few geranium leaves with them. Then, chancing to look down at her feet, she saw a purple pansy lifting its dark face to hers in the delightful way characteristic of that very human flower. She stooped and picked it, and put it with the roses, where its rich color seemed intensified by their yellow petals. Then she came to the gate and reached the little nosegay out to him.

He took it with a respectful look, and a low "Thank you." Something in his manner impressed her with the fact that he was no common tramp, although his clothes seemed to indicate that. She looked at him more closely, and saw a face in which there were traces of more than ordinary intelligence. It would have been a handsome face had it not been for the dissipated look in it.

"'Only a pansy blossom,'" he said, looking at the flower. "Do you know, ma'am, that was my mother's favorite flower, and after she died I used to sing that song when I thought of her. It's been a long time since I sung it last. Sometimes when I hear a piano I feel like taking possession of it and singing the song again. The sight of this pansy and the sound of some one playing the piano in the house yonder makes me want to sing it now. May I, just to thank you for your kindness to me? I am sure I can thank you in that way better than in any other."

"I shall be glad to hear you sing it," said Aunt Alice. "Come in," and she opened the gate for the tramp and welcomed him as if he were a gentleman.

Her little niece was practicing at the piano.

"I gave this man some flowers, and he has kindly offered to sing for me in return," she said, and the little girl, glad, doubtless, to get away from the piano, gave it up to him. He sat down and touched the keys caressingly. It was like friend clasping hand with friend. His fingers seemed to wken a responsive feeling in the instrument. It had never sounded like that before, Aunt Alice thought. Then he sang. The harshness died out of his voice. The hard look went out of his face. She had heard the song before many times, but never when it meant so much. He put new beauty into it. Before it was ended her eyes were full of tears.

"'Her dear, dead face I see'" He sang the lines over and over softly, and Aunt Alice saw tears running down his cheeks.

"If mother had only lived it night—indeed, I know it would have been different with me," he said brokenly.

"Don't you think she sees and knows all about you the same as before she died?" asked Aunt Alice, softly. "I do. And if she does, I think it hurts her mother heart to know that you are not what she would like to have you be. Think of that, and let it help you to be better. Your love for her ought to be an incentive to good and right living. Do right for her sake until you can do it for God's and your own sake."

The man looked at her wonderingly.

"No one ever talked to me like that before," he said. "I thank you for your kind words, and"—there was a hesitation as if he hardly dared say it for fear he would not keep his word, but a resolution to make the effort seemed to be made—"I'll try to do better, I will!" and a new light, a sort of sudden strength, seemed to come into his face. "For mother's sake," he added softly, and his eye caught the pansy as if he held in his heart some message from the dead.

"God help you. He will, He always does if we try," Aunt Alice said, and held out her hand to the man.—Vick's Magazine.

Read what a prominent New Yorker writes; he had been troubled with gouty rheumatism and its attendant painful symptoms for eighteen months:

"I have subjected myself for months to the severest rules of diet recommended for such conditions, and used almost all the remedies recommended for gout and rheumatism, without any benefit, until I heard of your imported Carlsbad Sprudel Salts, which I used faithfully for six weeks, dieting for the first three weeks and afterwards eating almost anything I desired. All the gouty and rheumatic symptoms left me after the fourth week, and my general health and spirits have become excellent once again."

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.

As a general family remedy for dyspepsia, Torpid Liver, Constipation, etc., I hardly ever see anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

Fifteenth Street Paving.

Sealed proposals will be received by the undersigned, up to 12 o'clock at noon of Monday,

THE 11TH DAY OF APRIL, 1892,

for improving Fifteenth street from the paving in Washington to the paving in Monroe street by paving the central twenty-six feet thereof with either Medina stone, vitrified brick, cedar block, or Trinidad asphalt laid on a foundation of hydraulic cement concrete, together with the necessary grading, curbing, gutters, crosswalks, drainage, etc.

The contractor or contractors who shall do the work herein provided for shall be paid in cash within ninety days after completion of the work and acceptance thereof by the city.

All bids must be written with ink and the price of each item shall be written out in full as well as in figures. Each bid must contain the full name of every person interested in the same. All parties filing bids for the matters specified in this notice, must deposit with the city clerk on each bid the sum of one hundred dollars. All deposits to be in cash or certified check on a bank doing a regular banking business in the city of Toledo, and accompanied by an agreement signed by the bidder and two disinterested persons, guaranteeing that, if the bid is accepted, a contract will be entered into—otherwise the sum at deposited to be forfeited to the city; and in case a contract is entered into, said deposit to remain until the first estimate of work done, (or double the amount of deposit,) is reported to the common council.

Bidders will be required to indorse their names on the outside of the envelope containing their proposal, and what the bid is for, the same to be filed with the city clerk. Bids not filed in accordance with the above requirements will be rejected.

Blank bids and envelopes can be obtained of the undersigned or of the city civil engineer.

Bidders must specify the time within which they will commence and complete the work after the acceptance of their bid.

Plans and specifications can be seen at the office of the city civil engineer.

The council reserves the right to reject any or all bids.

By order of the council.

All parties filing bids for the matter specified in this notice, must deposit with the city clerk on each bid the sum of ..... dollars. All deposits to be in cash or certified check on a bank doing a regular banking business in the city of Toledo, and accompanied by an agreement signed by the bidder and two disinterested persons, guaranteeing that, if the bid is accepted, a contract will be entered into—otherwise the sum at deposited to be forfeited to the city; and in case a contract is entered into, said deposit to remain until the first estimate of work done, (or double the amount of deposit,) is reported to the common council.

Bidders will be required to indorse their names on the outside of the envelope containing their proposal, and what the bid is for, the same to be filed with the city clerk. Bids not filed in accordance with the above requirements will be rejected.

Blank bids and envelopes can be obtained of the undersigned or of the city civil engineer.

Bidders must specify the time within which they will commence and complete the work after the acceptance of their bid.

Plans and specifications can be seen at the office of the city civil engineer.

The council reserves the right to reject any or all bids.

By order of the council.

C. H. DURIAN,
City Clerk.

THEN AND NOW.

The Wonderful Advance Which Has Been Made In the World and How It Is Helping the People.

These Are Valuable Truths.

There was a time when the oldest thing that could be found was considered the best, especially when it came to treating human ills. It is thought so no longer. People to-day demand the latest, the best, the most improved, the most scientific, and, in fact, the last discovery, in order to keep their health and prolong their lives. This is right; this is as it should be.

Doctors formerly bled their patients, but a doctor who should do so to-day would be arrested for malpractice. Formerly physicians treated symptoms; now they treat causes. If you are nervous, irritable, run down, restless, sleepless, with loss of appetite, lack of ambition; if you feel blue, despondent, disgusted with life, wholly discouraged, these symptoms are not a disease, only the results of a disease, simply the results of a broken down nervous system. If you feel this way, your nerves are more or less shattered, your health in jeopardy and your life in danger.

You cannot trifle with these things; you must meet them, and meet them at once. Nature does not, will not brook delay. If she is not assisted, she calls for assistance or collapse will be the result. But no ordinary assistance will do at such a time. It must be the most advanced, the most improved, the most scientific, in fact, a discovery.

There is but one discovery of the present day which will meet all these requirements, which will inevitably remove all of these unpleasant symptoms by restoring the shattered nervous system, which causes them. That discovery is Paine's Celery Compound. It was originated by Professor Phelps, of Dartmouth College, after years of careful study, and after being brought in contact with numberless men and women whose shattered nerves and broken health proved to him the great necessity for such a discovery. It has been found, and it is doing more to-day to bring despondent women to a state of health and happiness, to restore broken down men to strength and vigor than any other discovery of the past or the present day. It is warmly indorsed by all who have used it, and is the most popular preparation now known to the world. The following are a few of the commendations in its favor, all of which are most outspoken:

"I have been a victim of nerve and heart troubles for the last five years, with a terrible throbbing of my heart whenever trying to perform any kind of labor. I could not sleep nights on account of my nerves. I tried many remedies, but none proved a success until I used Paine's Celery Compound.

"My physician, J. Camp, M. D., says he must confess that Paine's Celery Compound has performed a miracle in my case. I speak with heartfelt earnestness when I recommend the Compound to every sufferer. Yours respectfully,

"M. E. WRIGHT,
"Bangor, Mich."

"Last year my husband was laid up for about four months with rheumatism, cramps, etc. He was very nervous, often not getting two hours' sleep a night. He had a doctor nearly every day, but finally commenced taking Paine's Celery Compound, and now he sleeps as well as any one, and does not have a touch of rheumatism.

"For ten years past I have had distressing neuralgic headaches. Sometimes the ache is mostly in the forepart of my head and eyes and sometimes on the top of my head, when it seems as if there were a five-pound flat-iron on it. Last winter it seemed impossible for me to do any work, but I have done it all this winter, and felt equal to it. It is really wonderful the good Paine's Celery Compound has done us.

"You may use our names if you wish, for we can't say too much for the Compound. Yours respectfully,

"MRS F. O. WILLARD,
"Leominster, Mass."

"For over twenty years I had spells that the doctor at first called neuralgia of the stomach, and then they came in all the internal organs. They kept getting worse all the time, so that for a year before using Paine's Celery Compound I was down sick. I think these spells were caused by a fall. My liver, kidneys and digestion were very bad.

"I tried so many things without help that I was completely discouraged. After spending hundreds of dollars for no good, I saw the Compound advertised. It certainly saved my life, and I shall keep praising it as long as I live.

I send you my picture, and wish I had one before using Paine's Celery Compound, for looks tell more than words. My nerves and complexion were very bad, but are all right now. I was the first one to use the Compound here, but now they sell more of it than of anything else. It has put me in such condition that I can nurse my baby now, when before I had to feed her. Very truly yours,

"MARTHA ARNOLD,
"Penn., Mich.

We may congratulate ourselves that we live in an age of such great advancement and such marked improvements. An age that enables us to live better and live longer. An age that discovers so many grand things by which we may benefit and thus increase our health and happiness.

ENTERTAINMENTS.

The Wilburs Will Sing Dorothy This Evening.

Dan McCarthy Opens the Week at the People's in Cruiskeen Lawn —Matinees at Wheeler's Every Day.

The Wilbur Opera company opens a week's engagement at Wheeler's this evening, in the charming opera, Dorothy. All the old favorites will be in the cast and a most enjoyable performance is assured. Commencing to-morrow afternoon, with Fanchette, matinees will be given each day. Popular prices will prevail. Fanchette will also be given to-morrow evening. Wednesday afternoon and evening Falka will be the attraction. Thursday the Black Hussar will be given. Friday, the Beggar Student Saturday afternoon, Dorothy, and Saturday evening, Grand Duchess. The Wilburs are great favorites here and will no doubt be greeted with large audiences. The matinees will be very popular with the ladies and children.

The Week at the People's.

This evening the Cruiskeen Lawn, a successful Irish comedy by Dan McCarthy, who is starring in the piece, will be presented at the People's, and will be the attraction for the week. The piece is a strong one, for while there is a good vein of comedy running through it there is also some good situations, clever actors and magnificent scenery. Dan McCarthy besides being a good comedian, is a charming singer and an excellent dancer.

His songs: "My Irish Queen," "Hands Across the Sea," "McCarthy's Ball," and "The Portrait of My Mother in Ireland Far Away" never fail to bring forth enthusiastic encores. The company should play to a big business as a first-class performance will be given in every respect.

BISHOP OF GREEN BAY.

Father Messmer Consecrated at Newark, N. J.

Newark, N. J., March 28.—Rev. Dr. Sebastian Gebhart Messmer was consecrated bishop of Green Bay, Wis., Sunday morning in St. Peter's church.

Archbishop Corrigan during the ceremonies occupied a seat on the right of the main altar with Bishop McQuaid, of Rochester, N. Y., and Father Cody, city chaplain; Bishop Otto Zardetti, of St. Cloud, Minn., was consecrator; Father Mendl, of Montclair, deacon; Father O'Connor, of St. James, of this city, subdeacon; Father O'Connor, of Seton Hall, master of ceremonies, and Father Lambert, of Hackensack, assistant.

Among the bishops present were the Right Rev. Wigger, of Newark; O'Farrell, of Trenton; Keane, of Washington University; McQuaid, of Rochester; McDonnell, bishop-elect of Brooklyn, and Very Rev. Henry Gabrets, bishop-elect of Ogdensburg, N. Y. Dr. Messmer was assisted during the ceremony by arch priest, Norbert Kerstans, of Green Bay.

The consecration ceremonies were performed with great pomp and devotion. Prior to taking the oath of office Dr. Messmer lay prone at the foot of the main altar while the litany of the saints was chanted. The Right Rev. Bishop McQuaid, of Rochester, preached the sermon. At the conclusion of the sermon the pectoral cross, episcopal ring and crozier were blessed. The mitre, having then been placed upon his head, the newly made bishop was escorted to the throne. The bishops presented and saluted him followed by the priests. He then gave his blessing to the congregation. After the ceremonies bishops, priests and guests went to Saenger hall, opposite, where a banquet was served. Bishop Messmer will remain here several weeks before he goes to his new charge.

WANTED IN ROCHESTER.

President Harrison Given a Cordial Invitation to Take a Trip.

Washington, March 26.—A delegation from Rochester, N. Y., headed by Congressman Greenleaf and ex-Congressman Baker, called on the president to-day and presented him a handsomely bound invitation to be present at the ceremonies in Rochester, May 30, Decoration Day, attending the dedication of the soldiers monument. The president said he would attend if possible and the delegation left much encouraged.

The delegation also called upon the members of the cabinet and invited them to be present.

MEDICAL TESTIMONY.

W. Thornton Parker, M. D., Recorder, Association of Acting Assisting Surgeons of the U. S. army, writes:

"Salem, Mass., March 23, 1891.

"When at Stuttgart, Germany, during the winter of 1881-82, I was suffering from a severe attack of bronchitis, which seemed to threaten pneumonia. I met, at the Hotel Marquardt, Commander Beardslee, of the United States navy. In speaking of my sickness, he remarked: 'Doctor, you can cure that chest trouble of yours by using an Allcock's Porous Plaster.' 'That may be true,' I answered, 'but where can I get the plaster?' 'Anywhere in the civilized world, and surely here in Stuttgart. Whenever I have a cold I always use one and find relief.' I sent to the drug store for the plaster, and it did all that my friend had promised. Ever since then I have used it whenever suffering from a cold, and I have many times prescribed it for patients.

"The Allcock's Plaster is the best to be had, and has saved many from severe illness, and undoubtedly, if used promptly, will save many valuable lives. Whenever one has a severe cold they should put on an Allcock's Plaster as soon as possible. It should be placed across the chest, the upper margin just below the neck; some hot beef tea, or milk, will aid in the treatment.

"This is not a patent remedy in the objectionable sense of that term, but a standard preparation of value. The government supplies for the U. S. army and Indian Hospital stores contain Allcock's Pasters, and the medical profession throughout the world are well aware of their reliability and excellence. I shall always recommend it, not only to break up colds, but as useful in allaying pains in the chest and in the back. It is a preparation worthy of general confidence."

ASSIGNMENT.

New York, March 26.—Peter Demarset and Albert W. Shaw, carrying on business under the name of George Demarest's Sons, dealers in butter and eggs, at 148 Reade street, assigned to-day with a preference of $4,461 to the estate of George W. Demarest.

Postmaster-General Wanamaker received a $50 Confederate note from the postmaster-general of Italy and was requested to cash it—but it was returned.

FRIGHTFUL SHIPWRECKS.

Staunch ships strike and flounder, the fierce winds and mountainous waves sweep noble mariners' "hearts of oak" to shipwreck and to death, yet that does not prevent the lubberliest landsman from risking his life on the stormy Atlantic in the role of tourist or commercial traveler. But if he shall reach his destination safely he will scarcely have escaped some of the qualms of sea sickness, unless he takes with him Hostetter's Stomach Bitters, that inimitable specific for nausea. Bad water on long trips are a threat to the voyager, but this may be deprived in a great measure of its disordering effects upon the stomach, bowels and liver by the Bitters. Against the prejudicial effects of malaria, bad diet, fatigue and exposure it is also efficacious. It averts, moreover, rheumatism and kidney complaints. Don't travel on sea or land without it.

DINAN IS DEAD.

The Owner of the Cronin White Horse Passes Away.

Chicago, March 28.—Patrick Dinan, the North Clark street liveryman whose white horse gained much celebrity in connection with the Cronin murder case, died Sunday morning. He had been ill several months.

On the day Dr. Cronin disappeared, May 4, 1889, Dan Coughlin, a detective at the East Chicago avenue police station, told Dinan that a friend of his would call for a horse and buggy that night.

About 7 o'clock in the evening Coughlin's friend walked into the stable and ordered the rig which Dan Coughlin had spoken about. The white horse was hitched up and the man drove to Dr. Cronin's office and conveyed the unfortunate man to the Carlson cottage, where he was murdered.

When the murder of Dr. Cronin was laid at the door of Dan Coughlin and the other men who are in prison with him, the white horse played a strong part in the chains of evidence which convicted them.

DO YOU WANT GOLD?
Cripple Creek is not a health resort. It is a wealth resort. Quite a difference! Location, near Pike's Peak, in Colorado. Gold—bright, yellow gold, is found at grass roots and in the rock formation.
Reliable experts claim this is to-day the richest camp in Colorado. Assays average $100 per ton, and have run as high as $5,000. One hundred people a day are now rushing to Fremont, chief town of the district.
The chance of a life-time is worth looking after!
You can get there quickly and comfortably by taking Santa Fe Route. Only line with no change of cars from Chicago, Kansas City and other principal cities to Florissant, nearest railroad station, with daily stages to Fremont.

Wheat Quotations for the Day—Price Current for Produce and Other Articles

The receipts of wheat to-day at Minneapolis and Duluth aggregate 507,038 bu and at five other points 159,333 bu. There is no bottom to the northwest wheat bins.

The export clearances Saturday at four Atlantic ports are wheat 115,922 bu and flour to an aggregate—including Philadelphia for a week—of 550,000 bu.

English markets as reported herein are dull and unchanged for wheat and corn.

Wheat Crop Outlook.

Mr. P. T. Hamm, of Kansas City, is a guest on our Exchange to-day. He was old-time resident of Toledo. He informs us that Kansas crop reports are yet unreliable—that more time is needed to determine the question. Meantime it has rained all over Kansas Friday and Saturday, which is not a bad feature.

In central Ohio, along the C., H. & D. railway, there will be some loss, but everywhere it is yet too early. Reports from Michigan, Indiana and Illinois are yet conflicting. March weather has hurt the wheat crop. There is no denying that, and how much, we shall soon know, on the basis of present temperature.

The Markets To-Day.

American wheat markets opened this morning at a sharp decline. It was about as unexpected as it was disagreeable, but foreign markets contribute no encouragement for higher prices, and American markets have gone out of the business of making prices for England and Europe. The markets east and west have ruled 1c to 1 1-2c lower.

Corn is about steady east and a shade lower west.

Foreign markets are quoted easier.

In New York May wheat closed 1c and July 1 1-8c lower. May corn 1-4c higher; July steady. May oats 3-8c up.

In Chicago, May and July wheat closed 1 5-8c lower. May corn 3-8c, and July 5-8c lower. May oats 1-2c lower.

In Toledo there has been reasonable activity in the wheat market, with less aggregate trading than on most of the days last week. The variations in price have been narrow, and the market very near where it opened and at a loss of 1 1-4c on May and 1 5-8c on July. On the call May wheat sold at 87@87 1-8c, closing at 87c, and August at 83 7-8c. After the call May sold at 87 1-4c, and closed at 87c. April sold at 87 1-4c, July at 84 3-8c, and closed at 83 7-8c. August sold at 83 3-4@84c, and closed at 83 3-8c. After change 20,000 bu. sold at 83 3-8c.

Cash wheat was in moderate milling request at 1-2c above the May price. No. 2 soft sold at 87 1-2c. In the Lake Shore, some car lots brought 87 1-2c to 88c. No. 3 soft at 85 1-2c to 85 3-4c. No. 4 soft at 80c. Rejected No. 1 at 80c.

Corn—No. 2 at 39c; No. 2 yellow at 40c; No. 3 yellow at 39. Rye—No. 2 at 83c.

Clover Seed was dull, weak and lower. Early sales of prime for cash were reported at $6.70, but at close there were much larger sales for March at $6.50.

The visible supply of wheat increased 154,000 bu. last week. Corn decreased 118,000 bu. and oats 81,000 bu.

In the corresponding week in 1891 wheat decreased 266,000 bu.; corn increased 81,000 bu.; oats decreased 11,000 bu.

New York visible supply: Wheat, 41,297,000; corn, 12,154,000; oats, 3,891,000.

The receipts of wheat at seven principal western points to-day are 666,371 bu, compared with 335,996 bu on the same day last year.

Wheat Stocks.—Toledo decreased 38,279 bu; New York decreased 607,052 bu.

New York, March 28.—Money easy at 1 1-2@2 per cent. Exchange quiet; posted rates 487@489; actual rates 485 3-4@486 for 60 days and 487 3-4@488 for demand.

Governments steady; currency 6s, 109 bid; 4s coup., 117 bid; extended 2s registered 100 bid.

The dealings on the stock exchange this morning amounted to 158,000 shares. The opening prices were practically unchanged. In the early dealings there was considerable pressure to sell and prices fell all around. Sugar and West Point led the downward movement. Toward 11 o'clock the market rallied sharply and at the end of the first hour figures were about the same as those of Saturday.

In the hour to noon prices were again weak. Sugar, West Point and Rock Island were pressed for sale with considerable vigor and under their lead prices declined to the lowest figures at noon.

At this writing the market is dull and generally 1-8 to 1 per cent. lower than the close on Saturday.

New York, March 28.—Flour steady; Minnesota extra, $2.90@5.15; fine, $2.00@3.00; superfine, $2.45@3.45; cit ymill extra, $4.75@4.90 for West Indies. Wheat opened weak and 3-8c lower and fell 5-8c more. Toward noon prices rallied 3-8c; No. 2 red winter wheat, 97 1-4c cash; 93 3-4c March; 94 5-8c April; 91 3-4c May. Corn opened steady and advanced 1-2c; No. 2 mixed, 49 1-4c cash; 48 1-4c April; 47 1-4c May. Oats dull; No. 2 mixed, 34 1-4@34 1-2c cash; 34 1-2c May. Rye steady; 88@91c for whole range. Barley neglected. Molasses dull and unchanged; sugar, refined quiet; cutloaf and crushed, 5@5 1-8c; powdered, 4 5-8@4 3-4c. Coffee dull; fair rio cargoes, 16 1-4c. Rice nominal. Pork dull; new mess, $11.00@11.50. Lard quiet; $6.58 May; $6.69 July. Butter steady; new western extra, 28 1-2c. Cheese quiet and steady; state factory fancy, 12 1-4c. Eggs dull and weak; state fresh, 13 1-2@13 3-4c; western do, 13 1-2c. Turpentine dull at 37@37 1-2c. Rosin quiet; strained to good, $1.37 1-2@1.42 1-2. Tallow dull; prime city, 4 3-4c. Petroleum quiet. Freights dull; grain to Glasgow, steam, 3 1-4d.

Chicago, March 28.—Opening—Wheat, May 80c; July 80 1-2c. Corn, May 39 7-8c; July, 38 3-4c. Oats, May, 28 5-8c. Pork, May $10.22 1-2; July $10.47 1-2. Lard, May $6.25; July $6.35. Ribs, May $5.62 1-2@ 5.65; July, $5.77 1-2.

ALONE ON THE PRAIRIE.

The day was in that transitory state when twilight lingers in the lap of day and darkness struggles for the ascendancy. The sun hung in a great red ball of lurid flame betwixt heaven and earth; there was a feeling of profound quiet which seemed to settle on all things animate and inanimate. The birds, the insects, the very trees and sprouting plants were for the moment hushed as if in expectancy of some unforeseen, some inexplicable something which seemed to pervade the very atmosphere. A bull frog gurgled softly as he fell back into the limpid water. Suddenly over the brow of a distant hill, there appeared a solitary man, seated aside a great bay horse; he cast one long sweeping glance around him and then went back over the brow of the hill again. And that same night over seven hundred people were turned away unable to gain admission to the opera house where "She Couldn't Marry Three" was being played to the most delighted audience of the season.

There were Sunday morning devotions at the Helping Hand mission in the shape of a free fight. A few of the participants were yanked down to the police station to allow them to sober up. They had good-sized loads on and were enjoying a few days' rest at the mission.

A WONDERFUL HALTER.

Vories P. Brown, of San Antonio, Tex., has just patented a halter that practically secures horses and other animals from theft, and secures them from evil designs of thieves and mischievous persons. The halter is safe, cheap and durable, and as useful as any ordinary halter, besides absolutely securing your horses from theft, whether fastened in your stable or on the street. We predict for this new invention ready sale.

Notice the advertisement of agents wanted for the sale of this halter, which will be found in another column of this paper. The retail price of this halter is $2, and it is manufactured by the Vories P. Brown Mnfg. C., San Antonio, Tex.

No Money Required of Responsible Parties to Commence Treatment
DOCTORS FRANCE AND OTTMAN,
Formerly of New York, now the Celebrated Examining Physicians of THE FRANCE MEDICAL AND SURGICAL INSTITUTE, Columbus, Ohio, by request of many friends and patients, have decided to visit Toledo
Dr. France, Wednesday, April 13.
Dr. Ottman, Saturday, April 23.
Consultation and Examination Free and Strictly Confidential in the Private Parlor of the Burnett House from 10 a. m. to 9 p. m., one day only.
The doctors describe the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. Their diagnostic powers have created wonders throughout the country.
The France Medical and Surgical Institute of Columbus, Ohio, is the only Medical Institute in the State Incorporated with a Capital of $300,000 00.

FRANCE MEDICAL AND SURGICAL INSTITUTE,
38 & 40 W. Gay St., one block N. of State House, Columbus, O. Incorporated, 1886. Capital, $300,000.
DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of eminent Physicians and Surgeons, each one being a well known specialist in his profession
CANCER positively cured without pain or use of the knife, by a new method.
IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.
YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.
DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and loins, involuntary discharges, impotency, general debility, nervousness, langnor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.
TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our [illegible] ng ladies, old, young, married, single, [illegible]. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.
MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.
PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal
